## **TFs-3500** Pressure Sealer

High volume sealer, packed with features and very easy to operate.

The M5035 Pressure Sealer is ideal for light to medium sized mailings, being capable of processing up to 3,500 documents an hour.

## Fast and simple to operate

The TFs-3500 medium duty Pressure Sealer is the perfect solution for processing pressure seal documents, operating at 3,500 forms per hour.

The TFs-3500 is designed for easy use, with fully adjustable folding plates and will save you hassle whether you're processing payslips, forms, remittance advice slips or confidential documents, Twofold's TFs-3500 eliminates the need to stamp and insert your forms into an envelope, therefore saving you valuable time and money whilst also reducing waste. The TFs-3500 will work with your existing printer and is extremely easy to use.

## Total efficiency

There is no need for liquid or glue, water or heat resulting in no mess or risk of burns. As the form passes through the machine, it is folded into place. The glued areas are then aligned against each other, before passing through the sealing rollers, which apply extremely high pressure to create a secure seal, ready for posting.

## Features

- Variable fold adjustment
- Auto calibration
- Resettable document counter
- Drop stack output
- Form size up to 14" deep
- 200 sheet feed capacity

## Benefits

- Wide range of applications
- Secure data
- Streamlines operations
- Increases productivity
- Cost savings
- Saves time
