

# REVENTION®

## Revention Quick Service POS

Did you know that for many brands in the quick service industry, the drive thru can account for 50% to 70% of sales? In a highly competitive industry, you need a comprehensive POS system that offers drive-thru and kitchen display integration, quick and easy order entry, integrated Tablet POS, and a loyalty program to help you increase speed of service and grow your sales.

### Simplify the drive-thru process

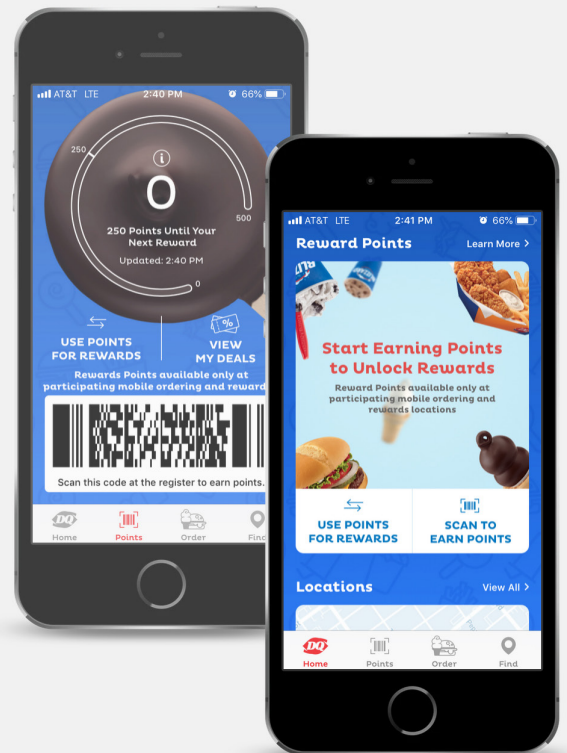

- Integrated drive-thru order confirmation screen that lets customers review orders for accuracy
- Order recall screen for employees to improve efficiency and customer satisfaction
- Dashboard style reports to see the speed of service and other key performance indicators

### Lightning fast order entry

- Edit items without deleting and re-entering
- Easy-to-understand order screen with red light/green light buttons
- Suggestive selling prompts and combo pricing

### Customizable and accurate kitchen display optimized for fast food restaurants

- Configurable ticket display
- Customizable print sequencing of menu groups and items
- Item and order display reveals each order and where it is located in the prep queue

## Create reward programs that increase repeat business

- Customize and manage loyalty programs by store, region, or across the enterprise from a single device
- Deliver personalized customer offers, increase customer retention, and drive more revenue
- Earn and redeem rewards from any Revention ordering platform

## Grow customer orders further with online ordering

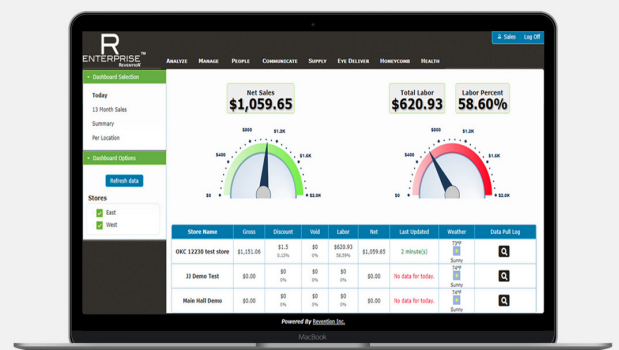

- Create a take out or delivery solution to make ordering easier for your customers
- Provide deliveries more quickly and economically with integrated delivery services
- Grow your business faster and further by owning the customer online experience

## Go mobile with Revention tablet POS

- Maximize revenue by processing orders more quickly and efficiently
- Diminish long lines and wait times with ease by line-busting in-store and drive-thru
- Seamlessly integrated with Revention Quick Service POS system

## Reporting features for fast food restaurants

- Customizable, end-of-day report that is automatically emailed to you
- Automatically generate report packages on a daily, weekly, or monthly basis
- Leverage real-time data to make smarter, more informed business decisions
