- 97 Stainless Steel Scaffold Key 7/16
- 97 Stainless Steel Scaffold Key 1/2 With Coil Tether Single-Action
- 97 Stainless Steel Scaffold Key 7/16 With Coil Tether Single-Action
- 98 Shifter
- 98 Scaffolders Tape Measure
- 98 Stabila Scaffolders Level
- 98 Scaffold Ratchet
- 98 Knipex Nips With Tool Catch

YOU NEED MORE THAN JUST THE EQUIPMENT YOU NEED A **STRATEGIC PARTNER**

You are forward-thinking. You are strategic. You are not interested in the bare minimum when it comes to implementing safety procedures; you establish class-leading strategies to ensure maximum efficiency and safety.
You are a leader of the modern workforce.

Target: Zero Drops is your strategic partner to assist you in delivering your goals. A true 360° solution, Target: Zero Drops delivers a range of modular solutions, allowing you to achieve best-in-class results for working safely with tools at height. The comprehensive suite is built on the foundation of a true partnership, delivering ongoing support and real-time results, ensuring you deliver on your safety and efficiency targets.

A MODULAR APPROACH

BUILD YOUR OWN SUCCESSFUL STRATEGY

Target: Zero Drops is a 360-degree commitment to safety through the emphasis placed on culture and education. We know that it is simply not enough to identify the equipment required and have it on-hand for workers operating at height.

A deeper level of understanding and acceptance is required from the end-user, to ensure that best practices are employed when working at height, and the impact of a dropped tool is nullified at the very start of any possible incident, instead of relying on the secondary measures (drop-zones, catchment nets etc.).

By targeting the weak spots in a dropped-tool prevention strategy, Target: Zero Drops allows the company or project leader to bring about meaningful change to on-site safety procedures at any stage of the project life cycle.

MODULE	OBJECTIVE
1	SITE & PROCESSES AUDIT
2	AWARENESS & CULTURE
3	CERTIFIED TRAINING
4	COMMUNICATION
5	ONGOING RESULTS MANAGEMENT

FOR MORE INFO VISIT:

WWW.TARGETZERODROPS.COM.AU

ON-SITE AUDIT

The GRIPPS on-site audit is a critical part of risk assessment for works at height, allowing you to address any blind-spots before they become incidents.

Our certified auditors will travel to your project worksite and assess all operations at height, providing a comprehensive report identifying risks and solutions.

CODE: H05010

TOOL TETHERING MANDATORY SIGN

Corflute mandatory sign. "TOOL TETHERS MUST BE USED WHEN WORKING ABOVE 2 METRES". Custom branding available. Complies with AS 1319 regulations.

CODE: HS-4010

TRAINING

Available on-site or in our accredited training facility. Get theoretical and hands-on training in tool tethering and risk-assessment best practices.

Our certified trainers deliver a course that creates experts in working safely at height with tools; educating on best-practices for a wide range of industrial applications, tools and equipment.

CODE: H05000

AWARENESS SESSION

The first step in a successful Dropped Object Prevention Strategy is building awareness around the risks associated with working at height.

Whether it's a toolbox talk, lunchroom presentation or live dropped object demonstration, we can help you drive awareness and change habits.

Leave a lasting impression with a keynote address from dropped-object survivor and brand ambassador Paul Weatherson, who intimately discusses the human cost of a dropped object incident.

CODE: H05030

COMMUNICATIONS PACK

Eye-catching and tightly focused on the risks around dropped tools, our educational materials provide the ongoing reminders your team needs to stay safe; tethering their tools as part of their daily operations.

All of these materials can be personalised and branded as required.

WHAT'S IN THE PACK:

- 7 x A2 Posters Printed On Thick 200GSM Paper
- 2 x Outdoor Vinyl Banners (78cm x 183cm OR 122cm x 183cm)
- 10 x Corflute Tool Tethering Mandatory Sign
- 20 x Drink Bottle/Spray Can Holsters
- 50 x Impact Force Warning Pens
- 7 x Digital Poster Files
- 5 x Email Banners
- 5 x Animated GIF Banners

CATT TOOL CONNECTORS

GRIPPS®

TOOL CONNECTORS

TOOL CATCH

SHORE
SOLID

The Tool Catch provides a strong, stable & durable retrofit tool connection point to a vast range of hand tools.

Attach the Tool Catch to your tool with V-Gripp Tape to create a fully load rated tool connection point for the most rugged conditions.

KEY FEATURES

- Tactical nylon for maximum strength.
- Closed metal ring to prevent warping with use.
- Easy installation process that can be done on-site.
- Fully certified and load rated when used with V-Gripp Tape.
- Available in two sizes.

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	SIZES	CODE
1.0kg 2.0lbs	12mm x 55mm 0.5" x 2.25"	H01005
2.5kg 5.0lbs	25mm x 90mm 1.0" x 3.5"	H01006

TOOL CATCH

SHORE
ELECTRICAL

The Non-Conductive Tool Catch provides a strong, stable & durable retrofit tool connection point to a vast range of hand tools.

Attach the Non-Conductive Tool Catch to your tool with V-Gripp Tape to create a fully load rated, non-conductive tool connection point for the most rugged conditions.

KEY FEATURES

- Tactical nylon for maximum strength.
- Tough poly-carbonate ring for durability.
- Easy installation process that can be done on-site.
- Fully certified and load rated when used with V-Gripp Tape.

INSTALLATION INSTRUCTIONS:

Cut a length of V-Gripp Tape approximately 30cm/12" (or enough to go around the tool 10 times). Position the Tool Catch on the tool. Apply V-Gripp Tape, pulling it tight and without covering the 'Catch' on the Tool Catch.

NO HEAT OR ADDITIONAL PROCESS REQUIRED!

ANSI/ISEA 121-2018 COMPLIANT

NON-CONDUCTIVE

MAX LOAD	LENGTH	CODE
1.0kg 2.0lbs	12mm x 55mm 0.5" x 2.25"	H01007

TOOL RING

**SHORE
SOLID**

Tool Rings are the most economical solution to creating a load rated anchor point. Suitable for a vast range of hand tools, Tool Rings are quick and easy to apply.

KEY FEATURES

- Quick, easy installation with no special tools or equipment required.
- Fully certified and load rated.
- Available in three sizes.

MAX LOAD	SIZES	CODE
1.0kg 2.0lbs	19mm 0.75"	H01036
1.0kg 2.0lbs	25mm 1.0"	H01037
1.0kg 2.0lbs	38mm 1.5"	H01038

E-CATCH

**SHORE
SOLID**

The E-Catch packs a heavy-duty industrial grade VHB, allowing it to attach to almost all surfaces, creating a fully load rated connection point instantly. Designed with electronic devices in mind, the E-Catch has a flexible, notched surface allowing it to adhere to curved surfaces.

When attached to mobile phones, cameras, radios and other handheld electronic equipment, the low profile of the E-Catch keeps it from interfering with any functionality.

KEY FEATURES

- Ready to use immediately after application. Cures completely in 24 hours.
- Flexible, notched surface adheres to curved surfaces.
- Heavy-duty industrial grade double stick tape.
- Connects to Electronic Tool Tether.
- Low profile.

SEE PAGES 30-32 FOR RELATED E-TETHERS

MAX LOAD	CODE
0.5kg 1.0lbs	H01035

SCREWLOCK CABLE

SHORE
OPEN

The Screwlock Cable is one of the quickest, easiest and most cost-effective way to create a tool connection point from existing hang-holes or slots. With a core band made from aircraft-grade steel, the fully load rated and certified Screwlock Cable is as dependable as it is hard-wearing.

Create your secure tool connection point by simply threading the Screwlock Cable through an existing hang-hole/slot in your tool, and screw closed. Add a drop of thread-locking compound before you screw shut to create a permanent, load rated connection point on your tools.

KEY FEATURES

- PU coated aircraft grade steel provides a hard wearing tool anchor that's easy to maintain.
- Fully load rated and certified.
- Easy installation process that can be performed on-site.
- Can be locked permanently using thread locking compounds.
- Available in four sizes.

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	SIZES	CODE
1.0kg 2.0lbs	3.0mm x 120mm 0.1" x 4.75"	H01030
1.0kg 2.0lbs	3.0mm x 150mm 0.1" x 6.0"	H01031
2.0kg 4.4lbs	4.0mm x 160mm 0.15" x 6.25"	H01032
2.0kg 4.4lbs	4.0mm x 200mm 0.15" x 8.0"	H01033

SWIVEL CATCH

SHORE
OPEN

The Swivel Catch is your guarantee against tangles and tension when working with tools at height. A fully load rated swivel point allows for a 360-degree operational range of motion, while the cord loop provides an easy and efficient tool choke.

Suitable for tools with hang holes/slots or closed handles, the Swivel Catch loops through the gap to create a choke. Tether your tool with a lanyard or coil to the metal ring and affix to your glove, belt or another anchor point.

KEY FEATURES

- Quick, easy installation with no special tools or equipment required.
- Swivel anchor allowing for full 360-degree range of movement without getting tangled.
- Fully certified and load rated.

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	LENGTH	CODE
2.5kg 5.0lbs	13cm 5.0"	H01021

TOOL-HITCH

**SHORE
HEAVY**

A simple choking mechanism in four variations allows the Tool-Hitch to secure anything from power tools to crowbars to sledgehammers.

By creating a loop around an enclosed handle, the Tool-Hitch produces a simple but strong and dependable tool connection point.

For application on open spaces, such as a sledgehammer handle, the Single Arm, Dual Arm and Heavy-Duty Tool-Hitch variations allow you to anchor the Tool-Hitch in position with the use of V-Gripp Tape.

KEY FEATURES

- Four variations allow for application to virtually every power/heavy tool.
- Instantaneous application to tools with an enclosed area.
- Tactical grade nylon for maximum strength.

TOOL CONNECTORS

LITTLE GRIPPER

SHORE
ROTATING

If you need a tool tethering solution that's quick to apply and has zero impact on tool functionality, then you need a Little Gripper.

Moulded from a specialised TPU material, the Little Gripper provides an instant fully load rated tool connection point without the need for adhesives.

Compatible with round and polygonal-shaped shafts, the 4 sizes cover a massive range of tools including screwdrivers, chisels, punches, pliers, pens, pry bars and more.

SEE PAGE 84 FOR KITS

SIZE	TOOL SHAFT DIAMETER	MAX LOAD (Without GrippLink)	CODE	MAX LOAD (With GrippLink)	CODE

GRIPP TIE

SHORE
SOLID

The latest revolution in tool height safety has arrived! Attaching to any tool or object with a diameter up to 4.5cm, the Gripp Tie creates an instantaneous, non-destructive and fully load rated tool connector point without the need for any additional tools or adhesives.

Engineered from military strength Nylon, the Gripp Tie features a patented silicon rubber collar, that grips onto the tool creating a fully load rated tool connector point.

With an inner diameter of 16mm/0.6, the tool connector point is compatible with either the loop or carabiner end of all GRIPPS tool tethers.

To create an instant load rated connector point, loop the Gripp Tie around the tool or object, feed tie through the buckle and pull tight. Cut off any excess length from the Gripp Tie and you're good to go!

KEY FEATURES

- Patented silicon rubber collar creates an instant and fully load rated tool connector.
- No additional tools or adhesives required for installation.
- Connects to objects and tools of any size and shape.

PATENT PENDING

MAX LOAD	CODE
2.5kg 5.5lbs	H01008
Minimum Tool Diameter: 1.5cm 0.5"	
Maximum Tool Diameter: 4.5cm 1.75"	

V-GRIPP TAPE

ANSI/ISEA 121-2018
COMPLIANT

V-Gripp tape distinguishes itself from the competition with its self-vulcanizing technology. By not relying on a traditional adhesive layer, V-Gripp Tape outperforms all other tapes on the market by creating a fully load rated and certified tool attachment point, when used in combination with a Tool Catch. Extremely durable and easy to apply, V-Gripp Tape is recommended for use on-site and in extreme conditions.

KEY FEATURES

- Self-Vulcanizing - Doesn't rely on chemical adhesives.
- Heat resistant to 150°C/302°F
- Resistant to water and oil.
- Extremely resilient and long lasting.

WIDTH	LENGTH	CODE
25mm 1.0"	2.7m 106"	H01010

ANSI/ISEA 121-2018 Compliant when used with GRIPPS Tool Catches.

INSTALLATION INSTRUCTIONS:

STEP 1: Cut a strip of V-Gripp Tape approximately 30cm/12" to 40cm/16" long depending on the size of the handle. Peel plastic coating away from the wrap. Tape should wrap 10-12 times around the tool. **Note:** Never use a Tool Catch with V-Gripp Tape on the tapered portion of a tool.

STEP 2: Place a Tool Catch attachment so that the ring of the Tool Catch is facing away from the centre of gravity of the tool. Ensure that when installed, the Tool Catch will not interfere with the safe working condition of the tool. Make sure the tool is free of debris which would interfere with the bonding of the V-Gripp Tape.

STEP 3: Wrap the tape around the tool while stretching the tape. It is critical to stretch the tape while wrapping, as this activates the tape and causes it to self-vulcanize creating a secure connection.

STEP 4: Once the connection is complete, test the connection to ensure proper installation has taken place.

IMPORTANT: Remember to always inspect the connection prior to each use for damage or irregularities that might affect the connection.

PHONE & TABLET GRIPPER

ANSI/ISEA 121-2018
COMPLIANT

Now you can tether your phone, tablet or mobile device WITHOUT the need for a permanent or semi-permanent connection point. Used in conjunction with a load rated tether, the Phone Gripper and Tablet Gripper use purpose-built silicon to create a fully load rated mobile device tethering solution with zero impact on device operation.

Traditional mobile device tethering relies on the use of destructive adhesives directly on your mobile device to attach a load rated connection point to your mobile device that never comes off.

The Phone/Tablet Gripper's flexible design allows you to tether your mobile device 'on-demand', allowing you free use of your mobile device when not operating at height.

KEY FEATURES

- Custom silicon compound for strength & grip.
- Avoids installing a permanent connector point on a mobile device.
- No additional adhesives required.
- Integrated and fully load rated tether connection eyelet.
- Compatible with virtually every smartphone or tablet make & model.

CATT GLOVES, WRISTBANDS & COVERALLS

C5-IMPACT TECHNIQUE

**ANSI/ISEA 121-2018
COMPLIANT**

If you require a glove that combines unprecedented levels of safety and comfort for high-risk applications, then you need the C5 range of GRIPPS gloves.

A tether anchor point (patent pending) engineered right into the glove, and an optional 2.3kg/5.0lbs Webbing Wrist Tether allows for complete tool control while safeguarding against dropping and maintaining dexterity.

A cut level 5 rating is supported by thermoplastic rubber to provide strategic impact protection. Nitrile micro-finish applied to the palms provides oil resistance and a solid non-slip grip while still maintaining superior comfort.

KEY FEATURES

- Compatible with the full range of GRIPPS wrist tethers.
- Black micro-finish nitrile palm giving glove a solid, non-slip grip.
- Load rated tether anchor point on each glove.
- Silicon enhanced grip on finger-tips and palms for extra control.
- Thermoplastic rubber on fingers, thumb and back of glove adding impact protection.
- Oil resistant palms ensuring a solid grip on slippery and/or wet surfaces.
- Snug, ergonomic fit ensuring glove is comfortable, while still being protective.

C5-IMPACT LITE GLOVES

**ANSI/ISEA 121-2018
COMPLIANT**

With the C5-Impact Lite, whenever you're carrying your gloves around the worksite, you're also carrying a fully load rated drop prevention system. The patent-pending tether anchor point is engineered directly into the glove and is load rated for any tool weighing up to 2.3kg/5.0lbs.

The key benefit of tethering to your wrist is the ability to maintain full dexterity and range of motion while on the job. With nothing attached to a belt or external structure, you're free from tangles, tension and catches.

The C5 rated gloves are manufactured from a super lightweight HPPE knit-liner and double-coated with a sandy foam nitrile, combining maximum cut resistance and dexterity with long-lasting grip. Ultra Armour TPR rear protection protects the wearer from impact and knocks to the top of the hand. This is a glove that's engineered to last.

KEY FEATURES

- Super lightweight HPPE knit liner providing maximum cut resistance.
- Double coated sandy foam nitrile for long lasting grip.
- Ultra Armour TPR Rear protection against impact for backs of hands.
- Fully load rated tether anchor everywhere you go.
- Maintain full usability of tools.

With the C5-Flexi Lite, whenever you're carrying your gloves around the worksite, you're also carrying a fully load rated drop prevention system. The patent-pending tether anchor point is engineered directly into the glove and is load rated for any tool weighing up to 2.3kg/5.0lbs.

The key benefit of tethering to your wrist is the ability to maintain full dexterity and range of motion while on the job. With nothing attached to a belt or external structure, you're free from tangles, tension and catches.

The C5 rated gloves are manufactured from a super lightweight HPPE knit-liner and double-coated with a sandy foam nitrile, combining maximum cut resistance and dexterity with long-lasting grip. This is a glove that's engineered to last.

KEY FEATURES

- Super lightweight HPPE knit liner providing maximum cut resistance.
- Double coated sandy foam nitrile for long lasting grip.
- Fully load rated tether anchor everywhere you go.
- Maintain full usability of tools.

SLIP-ON WRIST ANCHOR

ANSI/ISEA 121-2018
COMPLIANT

Lightweight, no-fuss and fully load rated, the Slip-On Wrist Anchor is a favourite amongst all trades.

If you want a cost-effective tether anchor for working with hand-tools at height, you can't go wrong with the Slip-On Wrist Anchor.

Available in three different sizes, simply slip on, tether your tool and get to work.

KEY FEATURES

- Light, flexible and strong.
- Suitable for use with the full range of GRIPPS wrist tethers.
- Fully load rated tether anchor point.
- Three different sizes available.

MAX LOAD: 2.5kg | 5.5lbs

ADJUSTABLE WRIST-ANCHOR

ANSI/ISEA 121-2018
COMPLIANT

Tether your hand tools with comfort and security using the Adjustable Wrist-Anchor. This one-size-fits-all wristband features a built-in fully load rated tether point for total tool control without the risk of snags or tangles.

Industrial grade Velcro repels dust, grease and grime to keep your Adjustable Wrist-Anchor firmly secured at all times, while tactical elastic webbing protects against tears.

KEY FEATURES

- Light, flexible and strong.
- Can be attached to hand-rails or on person.
- 5.0cm | 2" tactical elastic webbing.
- Industrial grade Velcro adjusts diameter to suit all users.
- Suitable for use with the full range of GRIPPS wrist tethers.
- Fully load rated tether anchor point.

FR WORK COVERALLS

Representing a revolutionary change in the practicality of tool tethering, the GRIPPS FR Work Coveralls gives users instant access to load rated tether anchor points, built directly into their workwear.

The strategically positioned tether anchor points provide a range of practical tethering options that support a full range of tasks and equipment, including handheld tools, hard hats and electronic devices.

Developed with the oil and gas industries in mind, the GRIPPS FR Work Coveralls feature a range of certifications making them appropriate for demanding industrial environments.

MAX LOAD	
Hard Hat Anchor	0.7kg 1.5lbs
Arm/Chest	1.7kg 3.75lbs
Waist/Leg	2.5kg 5.5lbs

CODE: H05010

KEY FEATURES

- Compatible with all GRIPPS tethers.
- Fully load rated tether anchors integrated directly into the coverall.

CATT TOOL TETHERS

BUNGEE TETHER

DUAL-ACTION 7.0KG | 15LBS

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01073

Lightweight and built to last, the Bungee Tether Dual-Action is as reliable as it is functional.

One of our most popular pieces of kit across all industries, the Bungee Tether Dual-Action features a dual-lock carabiner and elasticised webbing made from heavy-duty polyester.

The elastic properties of this durable material absorb downward force from a dropped tool, stabilising the user while protecting against bounce-back.

An extension range of 42cm/16" means the Bungee Tether Dual-Action is as compact as possible until required for use.

KEY FEATURES

- Heavy-duty elasticised webbing.
- Textured tail loop to fasten securely to tether anchor.
- Dual-action carabiner with swivel head.
- Force absorption & bounce-back protection.
- Lightweight and compact design.

Min Length: 89cm | 35"

Max Length: 131cm | 51"

Max Load: 7.0kg | 15lbs

Dual-Action Carabiner

DUAL CARABINER DUAL-ACTION 7.0KG | 15LBS

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01073D

The most popular tether in the GRIPPS range, now with additional dual-action carabiner for even faster attachment!

This versatile tether with carabiners on both ends means you avoid spending time hitching your tether – lock and load, either end.

The elastic properties of this durable material absorb downward force from a dropped tool, stabilising the user while protecting against bounce-back.

An extension range of 42cm/16" means the tether is as compact as possible until required for use.

KEY FEATURES

- Heavy-duty elasticised webbing.
- Textured tail loop to fasten securely to tether anchor.
- Two dual-action carabiners with swivel heads.
- Force absorption & bounce-back protection.
- Lightweight and compact design.

Min Length: 89cm | 35"

Max Length: 131cm | 51"

Max Load: 7.0kg | 15lbs

Two Dual-Action Carabiners

BUNGEE TETHER

SINGLE-ACTION 2.5KG | 5.0LBS

CODE: H01072

If you need a tool tethering solution that's simple, reliable and practical, then the Bungee Tether Single-Action has you covered.

Constructed from the same heavy-duty elasticised webbing as the rest of the GRIPPS bungee range, there are no compromises when it comes to force-absorption or quality of materials.

A steel carabiner and tactical strength anchoring loop secures any tool up to 2.5kg/5.0lbs from drops.

KEY FEATURES

- Heavy-duty elasticised webbing.
- Tactical strength anchoring loop secures to tool or tether anchor.
- Force absorption & bounce-back protection.
- Steel single-action carabiner.
- Lightweight and compact design.

Min Length: 89cm | 35"

Max Length: 131cm | 51"

Max Load: 2.5kg | 5.0lbs

Steel Single-Action Carabiner

TRIPLE-ACTION 7.0KG | 15LBS

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01074

Lightweight and built to last, the Bungee Tether Triple-Action is as reliable as it is functional.

One of our most popular pieces of kit across all industries, the Bungee Tether Triple-Action features a triple-action carabiner and elasticised webbing made from heavy-duty polyester.

The elastic properties of this durable material absorb downward force from a dropped tool, protecting the user while protecting against bounce-back.

An extension range of 42cm/16" means the Bungee Tether Triple-Action is as compact as possible until required for use.

KEY FEATURES

- Heavy-duty elasticised webbing.
- Wide-grip tail loop to fasten securely to tool or tether anchor.
- Force absorption & bounce-back protection.
- Triple-action carabiner with swivel head.
- Lightweight and compact design.

Min Length: 89cm | 35"

Max Length: 131cm | 51"

Max Load: 7.0kg | 15lbs

Triple-Action Carabiner

BUNGEE TETHER

HEAVY-DUTY DUAL-ACTION 18KG | 40LBS

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01071

Designed for heavy tools, the Bungee Tether Heavy-Duty Dual-Action features an over-sized dual-action carabiner, elasticised webbing made from heavy-duty polyester and a hi-vis wide-tail loop with additional grip-weave to fasten securely to tools or tether anchor points.

The elastic properties of this durable material absorb downward force from a dropped tool, protecting the user while protecting against bounce-back.

An extension range of 42cm/16" means the Bungee Tether Heavy-Duty Dual-Action is as compact as possible until required for use.

KEY FEATURES

- Heavy-duty elasticised webbing.
- Wide tail loop with additional grip-weave.
- Force absorption & bounce-back protection.
- Dual-action carabiner.
- Lightweight and compact design.

Min Length: 89cm | 35"

Max Length: 131cm | 51"

Max Load: 18.0kg | 40lbs

Dual-Action Carabiner

WEBBING TETHER

HEAVY-DUTY DUAL-ACTION 15.9KG | 35LBS

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01076

Ideal for securing large tools and equipment at height, the Webbing Tether Heavy-Duty Dual-Action is light, strong and dependable.

Industrial strength polyester webbing connects to a dual-action carabiner through a reinforced eyelet.

An extended tether length of 180cm/71" gives full flexibility to connect to tether anchor points while retaining a full range of motion when operating the tool/equipment.

KEY FEATURES

- Extra heavy-duty webbing.
- Large size dual-action carabiner.
- Ideal for securing larger tools and equipment at height.
- Extended reach allowing for tether anchor-point flexibility.

Length: 180cm | 71"

Max Load: 15.9kg | 35lbs

Dual-Action Carabiner

WEBBING TETHER

EXTRA HEAVY-DUTY DUAL-ACTION 36.9KG | 81LBS

CODE: H01079

Engineered for superior performance at height, the Webbing Tether Extra Heavy-Duty Dual-Action is load rated to a massive 36.9kg/81lbs.

A dual-action carabiner at each end enables tethering to a variety of anchor points and tool tether points, ensuring heavy tools are totally secure when working at height.

KEY FEATURES

- Abrasion resistant webbing.
- Two heavy-duty dual-action carabiners.
- Lightweight design.
- Huge maximum load rating.

Length: 180cm | 71"

Max Load: 36.9kg | 81lbs

Heavy-Duty Dual-Action Carabiners

COIL WRIST TETHER

SINGLE-ACTION 1.0KG | 2.0LBS (NON-CONDUCTIVE)

CODE: H01062

The Coil Wrist Tether Single-Action (Non-Conductive) is engineered to stay out of the way when not in use and provide versatility and access when the attached tool is required.

Lightweight single-action non-conductive poly clips feature swivel heads for ultimate manoeuvrability without snags or tangles.

KEY FEATURES

- Two lightweight single-action poly clips.
- Low profile and lightweight design.

Min Length: 17cm | 7.0"

Max Length: 77cm | 30"

Max Load: 1.0kg | 2.0lbs

Dual Non-Conductive Poly Clips

COIL TETHER

SINGLE-ACTION 1.0KG | 2.0LBS

CODE: H01068

The Coil Tether Single-Action is engineered to stay out of the way when not in use and provide versatility and access when the attached tool is required.

Lightweight single-action carabiners on each end feature swivel heads for ultimate manoeuvrability without snags or tangles.

The extra-thick PU coating on the 1.0kg/2.0lbs Coil Tether Single-Action prevents kinking and is resistant to heat and sharp edges.

KEY FEATURES

- Suitable for holsters, belts, pouches and harnesses.
- Two lightweight single-action carabiners.
- Low profile and lightweight design.
- Compatible with tether-ready scaffold key.
- Extra thick PU coated stainless steel coil.
- Heat and cut resistant.

Min Length: 40cm | 16"

Max Length: 160cm | 63"

Max Load: 1.0kg | 2.0lbs

Dual Single-Action Carabiners With Swivel

DUAL-ACTION 2.3KG | 5.0LBS

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01069

The Coil Tether Dual-Action is engineered to stay out of the way when not in use and provide versatility and access when the attached tool is required.

Lightweight dual-action carabiners on each end feature swivel heads for ultimate manoeuvrability without snags or tangles.

The extra-thick PU coating on the 2.3kg/5.0lbs Coil Tether Dual-Action prevents kinking and is resistant to heat and sharp edges.

KEY FEATURES

- Suitable for holsters, belts, pouches and harnesses.
- Two lightweight dual-action carabiners.
- Low profile and lightweight design.
- Extra thick PU coated stainless steel coil.
- Heat and cut resistant.

Min Length: 50cm | 20"

Max Length: 170cm | 67"

Max Load: 2.3kg | 5.0lbs

Two Dual-Action Carabiners With Swivel

WEBBING WRIST TETHER

SINGLE-ACTION 2.5KG | 5.0LBS

CODE: H01067

Designed to be used with GRIPPS gloves and wristbands, the Webbing Wrist Tether Single-Action provides tactical usability to handheld tools.

Manufactured from an abrasion-resistant webbing, the hard-wearing Webbing Wrist Tether Single-Action is exceptionally light.

Versatile enough for use with all hand-tools, the Webbing Wrist Tether Single-Action provides 360-degree mobility with dual swivel-head carabiners, meaning no more tangles or unnecessary tension on the line when working with hand tools.

KEY FEATURES

- Abrasion resistant webbing.
- Two swivel-head single-action carabiners.
- Compatible with full range of GRIPPS gloves and wristbands.

Length: 25cm | 10"

Max Load: 2.5kg | 5.0lbs

Swivel-Head Single-Action Carabiners

DUAL-ACTION 2.5KG | 5.0LBS

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01060

Designed to be used with GRIPPS gloves and wristbands, the Webbing Wrist Tether Dual-Action provides tactical usability to handheld tools.

Manufactured from an abrasion-resistant webbing, the hard-wearing Webbing Wrist Tether Dual-Action is exceptionally light.

Versatile enough for use with all hand-tools, the Webbing Wrist Tether Dual-Action provides 360-degree mobility with dual swivel-head carabiners, meaning no more tangles or unnecessary tension on the line when working with hand tools.

KEY FEATURES

- Abrasion resistant webbing.
- Two swivel-head dual-action carabiners.
- Compatible with full range of GRIPPS gloves and wristbands.

Length: 25cm | 10"

Max Load: 2.5kg | 5.0lbs

Swivel-Head Dual-Action Carabiners

COIL HARD HAT TETHER

COIL HARD HAT TETHER

ANSI/ISEA 121-2018
COMPLIANT

CODE: H01070

Reliable and out of the way, the Coil Hard Hat Tether is so low-profile you won't even know you're wearing it.

The coil features industrial grade PU to deliver strength and work-site ruggedness.

With a metal clamp far exceeding its maximum load rating combined with a tactical, light-weight design, the Coil Hard Hat Tether brings dependable strength when needed, and low-profile compatibility when not.

KEY FEATURES

- Lightweight and low profile design.
- Extremely strong metal clamp.
- Industrial grade PU.

Min Length: 11cm 4.0"
Max Length: 86cm 34"
Max Load: 0.5kg 1.0lbs

COIL HARD HAT TETHER
(NON-CONDUCTIVE)

ANSI/ISEA 121-2018
COMPLIANT

CODE: H01075

Reliable and out of the way, the Coil Hard Hat Tether (Non-Conductive) is so low-profile you won't even know you're wearing it.

The coil features industrial-grade PU to deliver strength and work-site ruggedness.

A poly clamp far exceeding its maximum load rating combines with a tactical, light-weight design, to deliver dependable strength when required, and low-profile compatibility when not.

KEY FEATURES

- Lightweight and low profile design.
- Strong, non-conductive poly clamp.
- Industrial grade PU.

Min Length: 11cm 4.0"
Max Length: 86cm 34"
Max Load: 0.5kg 1.0lbs

COIL E-TETHER

WITH POLY CLIP (NON-CONDUCTIVE)

CODE: H01063

The Coil E-Tether With Poly Clip (Non-Conductive) is engineered to withstand harsh work environments and keep your small electronic devices secure at height. A heavy-duty nylon clip connects your phone, camera, radio or another electronic device to the tether anchor point, with a single-action poly clip swivel head that allows freedom of movement without tangles.

A side-release attachment dock allows you to hot-swap any electronic device, providing a quick and secure solution to tethering cameras, cell phones, radios, and other small objects with an existing loop/hang hole.

The Coil E-Tether With Poly Clip (Non-Conductive) combines perfectly with the E-Catch (not included), to create drop prevention solutions for items that do not come with an existing loop/hang-hole and are traditionally very difficult to tether.

KEY FEATURES

- Heavy-duty nylon clip.
- PU coil for rugged use.
- Low profile and lightweight.
- Connects to the E-Catch.

Min Length: 18cm | 7.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.0lbs

WITH POLY CLIP & E-CATCH (NON-CONDUCTIVE)

CODE: H01061

The Coil E-Tether With Poly Clip & E-Catch (Non-Conductive) is engineered to withstand harsh work environments and keep your small electronic devices secure at height. A heavy-duty nylon clip connects your phone, camera, radio or another electronic device to the tether anchor point, with a single-action poly clip swivel head that allows freedom of movement without tangles.

A side-release attachment dock allows you to hot-swap any electronic device, providing a quick and secure solution to tethering cameras, cell phones, radios, and other small objects with an existing loop/hang hole.

The included E-Catch creates a tool connector point on items that do not come with an existing loop/hang-hole and are traditionally very difficult to tether. The PU coil stays compact and tight, staying out of the way when not in use.

KEY FEATURES

- Includes 1 xH01035 E-Catch.
- Heavy-duty nylon clip.
- PU coil for rugged use.
- Low profile and lightweight.

Min Length: 18cm | 7.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.0lbs

COIL E-TETHER

WITH POLY CLAMP (NON-CONDUCTIVE)

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01065

The Coil E-Tether With Poly Clamp (Non-Conductive) is your non-conductive solution for keeping small electronic devices secure at height in electrical environments. A tactical strength poly clamp allows absolute freedom of application, allowing you to anchor your phone, camera, radio or other electronic devices to virtually anywhere on your body.

A side-release attachment dock allows you to hot-swap any electronic device, providing a quick and secure solution to tethering cameras, cell phones, radios, and other small objects with an existing loop/hang hole.

The Coil E-Tether With Poly Clamp (Non-Conductive) combines perfectly with the E-Catch (not included), to create drop prevention solutions for items that do not come with an existing loop/hang-hole and are traditionally very difficult to tether. The PU coil stays compact and tight, staying out of the way when not in use.

KEY FEATURES

- Non-conductive tactical strength poly clamp.
- PU coil for rugged use.
- Low profile and lightweight.
- Connects to the E-Catch.

Min Length: 18cm | 7.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.0lbs

WITH POLY CLAMP & E-CATCH (NON-CONDUCTIVE)

CODE: H01059

The Coil E-Tether With Poly Clamp & E-Catch (Non-Conductive) is your non-conductive solution for keeping small electronic devices secure at height in electrical environments. A tactical strength poly clamp allows absolute freedom of application, allowing you to anchor your phone, camera, radio or other electronic devices to virtually anywhere on your body.

A side-release attachment dock allows you to hot-swap any electronic device, providing a quick and secure solution to tethering cameras, cell phones, radios, and other small objects with an existing loop/hang hole.

The included E-Catch creates a tool connector point on items that do not come with an existing loop/hang-hole and are traditionally very difficult to tether. The PU coil stays compact and tight, staying out of the way when not in use.

KEY FEATURES

- Includes 1 x H01035 E-Catch.
- Tactical strength, non-conductive poly clamp.
- PU coil for rugged use.
- Low profile and lightweight.
- Attaches to devices with and without tether attachment points.

Min Length: 18cm | 7.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.0lbs

COIL E-TETHER

WITH STEEL CLAMP

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01066

The Coil E-Tether With Steel Clamp is engineered to withstand harsh work environments and keep your small electronic devices secure at height.

An exceptionally strong steel clasp allows absolute freedom of application, allowing you to anchor your phone, camera, radio or other electronic devices to virtually anywhere on your body.

A side-release attachment dock allows you to hot-swap any electronic device, providing a quick and secure solution to tethering cameras, cell phones, radios, and other small objects with an existing loop/hang hole.

The Coil E-Tether With Steel Clamp combines perfectly with the E-Catch (not included), to create drop prevention solutions for items that do not come with an existing loop/hang-hole and are traditionally very difficult to tether. The PU coil stays compact and tight, staying out of the way when not in use.

KEY FEATURES

- PU coil for rugged use.
- Low profile and lightweight.
- Connects to the E-Catch.

Min Length: 18cm | 7.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.0lbs

WITH STEEL CLAMP & E-CATCH

CODE: H01064

The Coil E-Tether With Steel Clamp & E-Catch is engineered to withstand harsh work environments and keep your small electronic devices secure at height.

An exceptionally strong steel clasp allows absolute freedom of application, allowing you to anchor your phone, camera, radio or other electronic devices to virtually anywhere on your body.

A side-release attachment dock with loop attachment allows you to hot-swap any electronic device with either an existing loop hole or E-Catch, providing a quick and secure solution to tethering cameras, phones, radios, and other small objects.

The included E-Catch creates a tool connector point on items that do not come with an existing loop/hang-hole and are traditionally very difficult to tether. The PU coil stays compact and tight, staying out of the way when not in use.

KEY FEATURES

- Includes 1 x H01035 E-Catch.
- PU coil for rugged use.
- Low profile and lightweight.
- Attaches to devices with and without tether attachment points.

Min Length: 18cm | 7.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.0lbs

TOOL GRAPPLE®

TOOL GRAPPLE®

CODE: H01122

The Tool Grapple® sets the benchmark for retractable tool tethers in today's world.

Exclusively developed by GRIPPS and engineered to handle the rigours of the harshest height environments, this tool retractor exceeds expectations.

The Tool Grapple® has been dynamically tested for hand tools weighing up to 2.5kg/5.0lbs. This includes a substantial safety factor with the failure point recorded at 550kg/1212lbs!

KEY FEATURES

- Rubberised ABS synthetic housing.
- Woven stainless steel (PU sleeved) wire cable for superior flexibility.
- 1.25m/49" auto-retracting wire cable tether.
- Self-locking dual-action carabiner for maximum safety.
- Can be connected to the wrist when attached to a Wrist Anchor (H01086)

Max Length: 1.25m | 49"

Max Load: 2.5kg | 5.0lbs

TOOL GRAPPLE® WITH AUTO-STOP

CODE: H01123

The Tool Grapple® With Auto-Stop sets the benchmark for retractable tool tethers in today's world.

Exclusively developed by GRIPPS and engineered to handle the rigours of the harshest height environments, this tool retractor exceeds expectations.

A built-in Auto-Stop feature allows you to lock the length of the wire cable tether to any length, avoiding tension on the tether while working.

On top of this, the Tool Grapple® has been dynamically tested for hand tools weighing up to 2.5kg/5.0lbs, this includes a substantial safety factor with failure point recorded at 550kg/1212lbs!

KEY FEATURES

- Auto-lock tether to any length.
- Rubberised ABS synthetic housing.
- Woven stainless steel (PU sleeved) wire cable for superior flexibility.
- 1.25m/49" auto-retracting wire cable tether.
- Self-locking dual-action carabiner for maximum safety.
- Can be connected to the wrist when attached to a Wrist Anchor (H01086)

Max Length: 1.25m | 49"

Max Load: 2.5kg | 5.0lbs

RETRACTABLE TOOL TETHER

GEAR KEEPER TETHER WITH LOCK – 0.9KG | 2.0LBS

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01127

Rugged and ready for industrial duty, the Gear Keeper Retractable Tool Tether With Lock is packed full of features.

The stainless steel screw-lock carabiner gives maximum flexibility for tether anchorage, while the buckle allows rapid exchanging between multiple tools.

Protected against the elements and rated for industrial use, the housing box contains a locking retractor with a total reach of 1.5m/59".

KEY FEATURES

- Stainless steel dual-action carabiner.
- Locking retractor functionality.
- Buckle clip to instantly swap out tools.
- Includes retractor unit and 1 x Gear Keeper Tool Tether Connector.
- Made in the USA.

Max Length: 1.5m | 59"

Max Load: 0.9kg | 2.0lbs

Screw-Lock Carabiner

GEAR KEEPER TOOL TETHER CONNECTOR

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01129

The Gear Keeper Tool Tether Connector allows rapid exchanging between multiple tools when used with the Gear Keeper Dual-Action Retractable Tool Tether.

A nylon cord provides shock protection against drops and is resistant to abrasion and industrial conditions.

KEY FEATURES

- Shock absorbing nylon cord.
- Buckle clip to instantly swap out tools.
- Comes in a 10 pack.
- Made in the USA.

Max Length: 1.5m | 59"

Max Load: 0.9kg | 2.0lbs

RETRACTABLE TOOL TETHER

T-REIGN GEAR TETHER WITH LOCK - 0.5KG | 1.0LBS

CODE: H01121

Secure your tool with confidence using the T-Reign Retractable Gear Tether With Lock. The extremely strong Kevlar cord extends to 1.2m/79" while the rust and weather resistant mechanism delivers smooth and silent operation.

Tether and swap your tools instantly with the Click-Connect feature. Line-locking functionality allows you to set the length of your tether to take tension off the tether as you work.

KEY FEATURES

- Strong 1.2m/79" Kevlar cord, quiet smooth running and extremely strong.
- Click-Connect buckle allows for rapid exchanging between multiple tools.
- Rust and weather resistant hardware including high grade stainless steel spring, screws and gear loop.
- Durable poly-carbonate case protecting against weather and knocks.
- Lock system to keep gear tethered to any desired length.
- Safety breakaway end fitting that disengages from unit at approximately 11kg/24lbs of force.
- Made in the USA.

Max Length: 1.2m | 47"

Max Load: 0.5kg | 1.0lbs

T-REIGN CLICK-CONNECT END FITTING

CODE: H01121QC

Tether and swap your tools instantly with the T-Reign Click-Connect End Fitting.

Compatible with the T-Reign Retractable Gear Tether.

KEY FEATURES

- Click-Connect buckle allows for rapid exchanging between multiple tools.
- Safety breakaway and fitting that disengages from unit at approximately 11kg/24lbs of force.
- Made in the USA.

Max Load: 0.5kg | 1.0lbs

STEEL CABLE RETRACTOR UNIT - 0.7KG | 1.5LBS

Replacement Steel Cable Retractor Unit for all GRIPPS retractor products including Tool Holsters and Tool Pouches.

KEY FEATURES

- Premium quality.
- Made in the USA.

Max Length: 120cm | 47"

Max Load: 0.7kg | 1.5lbs

DUAL-ACTION CARABINER

This heavy-duty alloy Dual-Action Carabiner is designed specifically for tool tethering.

Lightweight and strong, a swivelling head allows absolute flexibility for tool use, while preventing knots and tangles in the tether.

A deep-set gripping pattern on the dual-action mechanism provides additional ease of operation and protects against slips.

KEY FEATURES

- Constructed from strong and lightweight alloy.
- Auto-locking dual-action.
- Also available as a triple-action.
- Strong, proven design.
- Swivel head to prevent tangles in tether.
- Deep-set gripping surface to prevent slips.
- Open gate width of 13mm/0.5".

Max Load: 2.5kg | 5.0lbs

CATT BAGS & POUCHES

MULE BAG

The champion of the GRIPPS lifting bag range, the Mule Bag provides a broad range of transportation and work-site mounting options.

The tough design with multiple reinforcement points makes it one of the strongest lifting bags on the global market, purpose-built to operate and last in the harshest of workplace environments.

Tool transportation at height is no longer a juggling act with reinforced backpack straps allowing the Mule Bag to be strapped on and carried, and a load rated lifting strap for when carrying heavier loads.

An armoured insert protects the wearers back from sharp contents, while also keeping the Mule Bag upright and supported while not being worn.

Designed with accessibility in mind, the width of the bag allows for manual transportation even when climbing up caged ladders.

The top opening can be closed off via the heavy-duty zip, allowing you to secure bag contents against accidental spills.

If working on an Elevated Work Platform, use the mounting straps to create a mobile workstation, keeping your tools secure while your hands are free and your workspace is clear. Keep tools organised with a range of pockets, pouches and sheaths, including twin heavy-tool sleeves on the outside of the Mule Bag.

MAX LOAD	HEIGHT	WIDTH	DEPTH
80kg 176lbs	45cm 18"	37cm 15"	18cm 7.0"

CODE: H01140

KEY FEATURES

- Width compatible with standard Ladder Cages.
- Reinforced backpack straps, EWP mounting straps and load rated lifting points.
- A strong composite insert in the base of the bag protects against punctures.
- Armoured insert for protection when wearing as a backpack.
- Load rated heavy-tool sleeves on both sides of the bag.
- Tether points inside and outside the bag for multiple tethering options.
- Multiple compartments inside the bag for tool storage and organisation.

MULE TOOL BACKPACK

Based on the same design as the best-selling GRIPPS Mule Bag, the Mule Tool Backpack provides all of the same key functionality in a smaller, more compact design.

This lightweight and versatile bag is constructed from water-repellent PVC leather and nylon materials. Extremely durable, the Mule Tool Backpack features additional reinforced material at the base, to protect against punctures.

If you're working near a rail or scaffolding, fully load rated mounting straps allow you to secure the Mule Tool Backpack up off the ground. Accessing the contents is made easier with a fold-out front-panel supported by heavy-duty zips.

Stronger and more durable than a standard tool backpack, the Mule Tool Backpack is suitable for a range of worksite activities comfortably carrying power tools, hand-tools, accessories and other small objects.

Tool organisation is sorted with a range of sleeves, zip-pockets and Velcro pockets lining the interior of the bag. Twin external straps keep tools such as Hammers and Podger Bars always at hand.

Two retractable tether pouches compliment a total of eight fully load rated D-Ring tether anchors (four inside, four outside), ensuring that every tool can be safely tethered.

CODE: H01141

MAX LOAD (D-Ring)	MAX LOAD (Straps)
2.5kg 5.0lbs	20kg 44lbs

KEY FEATURES

- Lightweight, durable and robust design.
- Made from water repellent PVC leather and Nylon fabric.
- Reinforced, puncture-proof base.
- Load rated mounting straps for attaching to rails & scaffolding.
- Tool organisation sleeves, pockets and straps.
- Multiple internal and external fully load rated anchor points.

BISON BAG

Loaded with features, the Bison Bag provides a comprehensive solution to tool management, transportation and tethering for working at height. Tether anchors inside and outside the bag keep tools secure and accessible, and an extra heavy-duty drawstring webbing keeps contents secured against spills and drops.

Built for harsh industrial environments, the Bison Bag protects against punctures with a composite insert built right into the base of the bucket. A fully load rated lifting strap allows for easy transportation of the Bison Bag to the work area.

MAX LOAD (D-Ring)	MAX LOAD (Bucket)	HEIGHT	DIAMETER
2.5kg 5.0lbs	45kg 99lbs	40cm 16"	30cm 12"

CODE: H01115

KEY FEATURES

- Heavy-duty drawstring closure protecting against spills and drops.
- Multiple inner pockets for comprehensive tool organisation.
- Puncture-proof composite insert in the bucket base.
- Tether anchor points on the inside and outside of the bucket.
- Extra heavy-duty webbing for long-lasting survival in the harshest of construction environments.

BULL BAG – 113KG | 249LBS

Arguably the most robust lifting bag in the world, the reinforced Bull Bag features a smart locking Velcro mesh sleeve that protects against accidental spills and drops while allowing light into the bag.

Fully load rated reinforced lifting straps allows for easy transportation of the Bull Bag to the work area and built-in tether anchor points mean the tools are ready to be used as soon as the bag is opened.

MAX LOAD	HEIGHT	DIAMETER
113kg 249lbs	38cm 15"	31cm 12"

CODE: H01110

Dual-Action Carabiner

KEY FEATURES

- Heavy-duty Velcro closure with locking feature protects against accidental spills.
- Reinforced dual-layer mesh allows light into the bag for full content visibility.
- A strong composite insert in the base of the bag protects against punctures.
- Made with extra heavy-duty oil repellent vinyl and tested to last in the harshest of construction environments.
- Dual-action carabiner to secure Bull Bag during use.
- Built-in tether anchor points inside the bucket, enabling tools to be tethered directly to the inside of each bag.

ZIP-LOCK BAG - 30KG | 66LBS

ANSI/ISEA 121-2018
COMPLIANT

Lightweight and built for strength, the Zip-Lock Bag combines multiple levels of functionality into an extremely affordable package.

Constructed from water & puncture resistant nylon, the Zip-Lock Bag features a heavy-duty type-10 nylon zip to keep the reinforced lid shut and your contents secure. The fully load-rated lifting strap allows for flexibility in transportation, and a reinforced bottom ensures longevity in harsh conditions.

CODE: H01112

KEY FEATURES

- Puncture and water resistant.
- 10mm/0.4" heavy-duty nylon zip.
- Certified lifting strap.
- Reinforced lid and bottom.

MAX LOAD	HEIGHT	DIAMETER
30kg 66lbs	46cm 18"	27cm 11.5"

ROPE ACCESS TOOL BAG

ANSI/ISEA 121-2018
COMPLIANT

Robust, lightweight and packed with tether anchor points, the Rope Access Tool Bag keeps tools tethered and accessible whether they're inside or outside of the bag. A zip closure keeps contents safe and secure during transportation, while an in-built metal-snap mechanism holds the top open and the contents accessible when on the job.

Heavy-duty tether anchors inside the bag complement an array of tether anchors on the outside, to ensure tools remain tethered during all stages of the job. Inner sleeves keep tools organised inside the bag.

CODE: H01135

KEY FEATURES

- Compact and easily stored when not in use.
- Heavy-duty zip closure for absolute tool security.
- Metal-snap mechanism holds bag open or snaps it shut.
- Heavy-duty tether anchors installed inside and outside the bag.
- Inner pockets for tool organisation.

MAX LOAD	HEIGHT	DIAMETER
10kg 22lbs	30cm 12"	20cm 8.0"

LIFTING BAG INSERT

Instantly transform your GRIPPS Lifting Bag into a workable tool bag with the GRIPPS Lifting Bag Insert.

Compatible with all GRIPPS Lifting Bags, this heavy-duty nylon insert holds the lifting bag open and provides multiple pockets for tool organisation.

The design of the insert allows the pockets to fit underneath the existing tether anchor points on the lifting bag, meaning all tools inside the bag and pockets can be 100% safely tethered.

CODE: H01109

KEY FEATURES

- Constructed from heavy-duty nylon.
- 4 reinforced tool organisation pockets.
- Compatible with the following GRIPPS lifting bags: H01110, H01115, H01112.

SIZE	ADJUSTABLE DIAMETER OF
93cm x 27cm x 4.0mm 37" x 11" x 0.15"	27cm - 29cm 10" - 11"

SCAFFOLD TUBE LIFTING BAG

Safely lift, transport & store multiple tubes of up to 1.8m in length with the GRIPPS Scaffold Tube Lifting Bag, and create a safer and more efficient job site.

A Hypalon reinforced base on the bottom resists punctures, and fully sealable enclosure at the top ensures that all contents of the bag stay safe and secure at all times.

Constructed with industrial-strength cotton canvas, the Scaffold Tube Lifting Bag is engineered to provide superior longevity and durability for all industrial construction and maintenance activities.

CODE: H01101

KEY FEATURES

- Lift & transport tubes up to 1.8m in length.
- Fully load rated lifting strap.
- Puncture, chemical & temperature resistant Hypalon reinforced base.
- Constructed from 26oz. cotton canvas.
- Pull-string enclosure to fully secure contents.

MAX LOAD: 45kg | 100lbs

GTS-20T/25T

ANSI/ISEA 121-2018
COMPLIANT

KEY FEATURES

- Organises & tethers up to up to either 20 or 25 tools.
- Mounting straps compatible with EWP cages, scaffold tubing, handrails.
- Reinforced stiff backing creates stable workstation.
- Extra heavy-duty 26-ounce canvas.
- Suitable for working in low voltage electrical environments.

20T CODE: H01147

25T CODE: H01145

The 20 or 25 tool GRIPPS Tethering Station (GTS-20T & GTS-25T) is a fully functional mobile tethering workstation, suitable for a range of environments. Constructed from an extra heavy-duty, 26-ounce canvas, the minimal/isolated use of metals and non-conductive tether anchors make the GTS safe for works around live electricity.

For all works at height, attach the GTS to scaffold tubes, handrails or EWP cages using the load rated and hard-wearing straps. Reinforced eyelets allow the GTS to be hung via hooks or tied off with rope to suit virtually any other conceivable environment.

Supported by a rigid backboard that prevents twisting or distortion, the GTS is loaded with options for a complete tool kit-out. Dual general-purpose pouches are reinforced with inner-stitched plating – perfect for battery tools. A range of stretch-webbing and canvas sheaths keep your full kit of hand-tools, heavy's and equipment organised and accessible.

Strategically placed tether anchors ensure every tool is tethered and accessible at all times, with each tether anchor fully load rated and non-conductive. Two dual-action carabiners provide additional anchoring and tethering options.

	SIZE	MAX LOAD (D-Ring)
20T	60cm x 55cm 24" x 22"	3.0kg 6.0lbs
25T	90cm x 55cm 35" x 22"	3.0kg 6.0lbs

BOLT-VAULT

ANSI/ISEA 121-2018
COMPLIANT

Patent
Pending

The Bolt-Vault is designed to mitigate the risk of small objects used during live-edge works. The patented design creates a protected environment around the wearer's hand, while two reinforced interlace panels allow for the insertion of tools and working applications (such as bolt threads).

Constructed from heavy-duty nylon, the Bolt-Vault has been strenuously tested in commercial environments to guarantee a long life under harsh working conditions. The tactical nylon weave allows tools and other objects to come into the working environment while maintaining the integrity of the drop protection zone.

The Bolt-Vault is secured to the wrist with industrial-grade Velcro and features two integrated and fully load rated tether anchor points, allowing the user to attached tools of up to 2.5kg/5.0lbs each directly to the Bolt-Vault itself.

SIZE	MAX LOAD (D-Ring)	MAX LOAD (Pouch)
13cm x 11cm x 25cm 5.0" x 4.25" x 10"	2.5kg 5.0lbs	2.5kg 5.0lbs

CODE: H02105

KEY FEATURES

- Creates an instant drop control environment around wearers hand.
- Constructed from heavy-duty nylon.
- Folds down to a standard glove size when not in use.
- Two reinforced mesh windows allow you to see objects inside.
- Two tactical nylon weave panels allow insertion of tools/objects.

BOLT-SAFE POUCH

A 'best in class' self-closure system makes it almost impossible for loose nuts, bolts and other small items to fall out of the Bolt-Safe Pouch.

Even when turned upside down and shaken vigorously, the Bolt-Safe Pouch keeps all contents trapped safely inside. Attaches to belt, railing, harness or scaffold tube with a load rated Velcro strap.

Compatible with both tool belts and harnesses, the Bolt-Safe Pouch self-closure system allows for easy retrieval of contents, even when wearing gloves.

The automatic self-closure system means no effort is required to keep contents trapped and secure.

MAX LOAD (D-Ring)	MAX LOAD (Pouch)
2.5kg 5.0lbs	5.0kg 11lbs

CODE: H02101

KEY FEATURES

- Keeps objects such as nuts, bolts, screws etc. securely enclosed.
- Fits easily onto most tool belts and can easily be fitted to harnesses and rails with Velcro strap.
- Canvas material that repels oil and is easy to wipe clean.
- Reach-in retrieval and automatic self-closure means no more lids or zips.

BOLT-SAFE RAIL BAG

**ANSI/ISEA 121-2018
COMPLIANT**

Building on the legacy of the Bolt-Safe Pouch, the Bolt-Safe Rail Bag features the same 'best in class' self-closure system that makes it almost impossible for loose nuts, bolts and other small items to fall out.

The Bolt-Safe Rail Bag attaches to belts, railing, harnesses and scaffold tubes with fully load rated straps.

Even when turned upside down and shaken vigorously, the Rail Bag keeps all contents trapped safely inside.

A reinforced mesh window allows light into the pouch, eliminating the guessing game of trying to find items in the pouch by touch alone.

SIZE	MAX LOAD (Pouch)
30cm x 20cm x 6.0cm 12" x 8" x 2.5"	5.0kg 11lbs

CODE: H02102

KEY FEATURES

- Keeps small objects such as nuts, bolts, screws etc. securely enclosed.
- Attaches easily to tool belts, harnesses and rails.
- Made from tough canvas that repels oil and is easy to wipe clean.
- Reach-in retrieval and automatic self-closure means no more lids or zips.
- Reinforced mesh window allows light inside the pouch.

LOCKJAW RIGGERS BAG

This practical tool bag packs a heap of features that make tool organisation, access and storage a breeze.

Featuring a robust metal snap frame built into the zip, the Lockjaw Riggers Bag can be locked open or closed, allowing you to access all contents of the bag without having to work around a flimsy lid.

Suited for a variety of small objects and hand tools, the inner sleeve features a variety of pouches, pockets and sleeves to keep everything at hand and organised.

Six internal and four external fully load rated D-Rings gives you total flexibility in tethering all contents against drops.

Fully load rated loops allow for the Lockjaw Riggers Bag to be attached to a tool belt or harness, at the waist, chest or over the shoulder.

SIZE	MAX LOAD
25cm x 20cm x 8cm 9.8" x 7.8" x 3.2"	5.0kg 11lbs

CODE: H02106

KEY FEATURES

- A metal snap frame that allows the bag to be locked open or closed.
- Industrial strength zip to totally secure contents.
- Inner sleeve tool organisation pockets, sleeves & pouches.
- A total of 10 load rated D-Rings to attach tethers to.
- Can be attached to work belts and harnesses in a variety of locations.
- Suitable for hand tools, small objects & materials.

A person wearing a climbing helmet with a Petzl logo, goggles, and a green respirator mask. They are holding a red Petzl device, possibly a climbing aid or a tool. The background is dark and textured.

TOOL BELTS & HOLSTERS

TOOL BELTS & HOLSTERS

WORK BELTS

COMFORT WORK BELT WITH BACK SUPPORT

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01116

The GRIPPS Comfort Work Belt With Back Support introduces a new level of wear-ability and safety to workers operating at height, alongside a swag of features. One of the lightest in its class, the Comfort Work Belt also packs 'Ergo-Motion' back support to provide ultimate comfort.

Compatible with all GRIPPS holsters and pouches, the Comfort Work Belt allows full customisation of composition and layout so you can work the way you want to. The form-poly belt support has a heavy-duty Cordura structure, providing exceptional longevity.

KEY FEATURES

- Allows for full customisation of holster and pouch layout.
- Multiple load rated tether anchors for tether attachment.
- Engineered 'Ergo-Motion' back support for ultimate comfort.
- Amazingly lightweight.
- 'Ergo-Motion' design engineered to spread the weight of a loaded belt evenly on the user.
- Heavy-duty Cordura structure.
- Reinforced form-poly belt support.
- Dual pin belt buckle.

Max Load (D-Ring): 2.5kg | 5.5lbs

Size: One Size Fits All

REINFORCED SYNTHETIC WORK BELT

CODE: H01119

Cutting edge ergo-dynamics engineered with work site toughness is what you can expect from the GRIPPS Reinforced Synthetic Work Belt.

The 'Ergo-Motion' design with reinforced form-poly belt support provides absolute comfort to the wearer, while the heavy-duty Cordura structure ensures it survives the wear and tear in the most demanding conditions.

KEY FEATURES

- Compatible with the Work Belt Back Support.
- Heavy-duty Cordura structure.
- Reinforced with form-poly belt support.
- Dual pin belt buckle.
- 'Ergo-Motion' design for maximum comfort.

Size: One Size Fits All

TOOL BELTS & HOLSTERS

ECONO BELT

Carry up to three tools or holsters with one of the lightest work belts in the world.

Made from an exceptionally strong Nylon weave, it also features a full-length Velcro inlay, allowing you to set the length of the belt to any size between 71cm/28" and 122cm/48".

The lightweight side release buckle makes the GRIPPS Econo Belt a breeze to take on or off - or even use as a stabilising strap for tool transportation such as the Mule Bag.

KEY FEATURES

- Ultra-lightweight and strong Nylon belt.
- Adjustable to any length with Velcro inlay.
- Heavy-duty POM side release buckle.
- Attach up to three tools or holsters.
- Secure backpacks to your body.

BOA HOLSTER

**ANSI/ISEA 121-2018
COMPLIANT**

The Battery Operated Arrest (BOA) Holster keeps battery-operated hand tools secured and at hand. Compatible with any standard tool belt, the self-locking hook immediately captures and secures your tool by simply dropping it into the holster.

Ideal for scaffolders, roofers or construction professionals who work at height and need free hands for productivity and safety, the BOA Holster simplifies tool holstering with its single-handed operation.

Combine with a GRIPPS Belt-Loop Anchor & Tether for a fully load rated tool drop prevention system.

KEY FEATURES

- Made from industrial strength, lightweight plastic.
- Spring loaded mechanism immediately traps tools in holster.
- Compatible with virtually any work belt.
- Instant drop prevention security for battery operated hand-tools.

TOOL BELTS & HOLSTERS

BELT-LOOP ANCHOR

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01142

MAX LOAD (D-Ring): 2.5kg | 5.0lbs

Compatible with all 50mm/2.0" work belts, the Belt-Loop Anchor creates an instant tether anchor that is fully load rated.

Just thread your work belt through the Belt-Loop Anchor and attach your tethered tool.

CLAW HAMMER HOLSTER

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H02062

MAX LOAD (D-Ring): 2.5kg | 5.0lbs

Compatible with all standard work belts, the Claw Hammer Holster keeps your tools secure and easily accessible with a high-quality nylon strap secured with a snap-lock button.

Two load rated D-Rings allow you to tether your tool to the holster keeping it secure against drops.

SINGLE TOOL HOLSTER

**ANSI/ISEA 121-2018
COMPLIANT**

Designed for working at height, the Single Tool Holster keeps your tools secure and accessible in a lightweight and industrial-grade design.

The robust and compact Single Tool Holster is ideal for tools such as nips, torpedo levels and wire cutters.

KEY FEATURES

- 2 x load rated D-Rings providing additional tether anchor points.
- Lightweight design with industrial toughness.
- Compatible with the H01120 Steel Cable Retractor Unit.

CODE: H02017

MAX LOAD (D-Ring): 2.5kg | 5.0lbs

TOOL BELTS & HOLSTERS

SINGLE TOOL HOLSTER

Designed for working at height, the Retractable Single Tool Holster keeps your tools secure and accessible in a lightweight and industrial-grade design. The robust and compact Single Tool Holster is ideal for tools such as nips, torpedo levels and wire cutters.

Developed in the USA, built-in retractor technology is the result of extensive research and on-site trialling. It features a locking system to remove tension from the tether while working with your tools.

KEY FEATURES

- Built-in retractor.
- 2 x load rated D-Rings providing additional tether anchor points.
- Lightweight design with industrial toughness.
- Heavy-duty tether cable.

Max Length: 1.2m | 47"

RETRACTABLE

CODE: H02018

MAX LOAD (D-Ring): 2.5kg | 5.0lbs
MAX LOAD (Retractor): 0.7kg | 1.0lbs

AUTO-LOCK SINGLE TOOL HOLSTER

Designed for working at height, the Retractable Single Tool Holster With Auto-Stop keeps your tools secure and accessible in a lightweight and industrial-grade design. The robust and compact Single Tool Holster is ideal for tools such as nips, torpedo levels and wire cutters.

Developed in the USA, built-in retractor technology is the result of extensive research and on-site trialling. It features a locking system to remove tension from the tether while working with your tools.

KEY FEATURES

- Built-in auto-stop retractor.
- 2 x load rated D-Rings providing additional tether anchor points.
- Lightweight design with industrial toughness.
- Heavy-duty tether cable.

Max Length: 1.2m | 47"

RETRACTABLE

CODE: H02019

MAX LOAD (D-Ring): 2.5kg | 5.0lbs
MAX LOAD (Retractor): 0.7kg | 1.0lbs

TOOL BELTS & HOLSTERS

TAPE MEASURE HOLSTER

**ANSI/ISEA 121-2018
COMPLIANT**

Designed for working at height, the Tape Measure Holster keeps your tools secure and accessible in a lightweight and industrial-grade design.

The robust and compact Tape Measure Holster suits all standard tape measure sizes.

KEY FEATURES

- 2 x load rated D-Rings providing additional tether anchor points.
- Lightweight design with industrial toughness.

CODE: H02054

MAX LOAD: 2.5kg | 5.0lbs

TAPE MEASURE HOLSTER

Designed for working at height, the Retractable Tape Measure Holster keeps your tools secure and accessible in a lightweight and industrial-grade design. The robust and compact Tape Measure Holster suits all standard tape measure sizes.

Developed in the USA, built-in retractor technology is the result of extensive research and on-site trialling. It features a locking system to remove tension from the tether while working with your tools.

KEY FEATURES

- Built-in retractor.
- 2 x load rated D-Rings providing additional tether anchor points.
- Lightweight design with industrial toughness.

RETRACTABLE

CODE: H02055

Max Length: 1.2m | 47"

TOOL BELTS & HOLSTERS

TAPE MEASURE LATCH

Engineered to be used with the GRIPPS Tape Measure Catch, the Retractable Tape Measure Latch enables quick tethering and holstering of tape measures.

A steel retractor cable feeds through the back of the unit, connecting to the Tape Measure Catch. A mounted quick-connect platform secures the Tape Measure Catch when not in use.

KEY FEATURES

- Compatible with the GRIPPS Tape Measure Catch.
- Built-in retractor.
- Quick-connect platform for securing your tape measure when not in use.
- Lightweight design with industrial toughness.
- 2 x load rated D-Rings providing additional tether anchor points.

Max Length: 1.2m | 47"

RETRACTABLE

TAPE MEASURE CATCH

**ANSI/ISEA 121-2018
COMPLIANT**

Engineered to be compatible with virtually all tape measure brands from 5.0m - 8.0m/197" - 315" in length, the Tape Measure Catch retains full functionality while providing security when working at heights.

Used in conjunction with a Tether, GRIPPS Tape Measure Latch or GRIPPS Tape Measure Holster, the Tape Measure Catch keeps your tape measure out of the way when not needed, and in your hand when it is.

KEY FEATURES

- Can be worn on or off a work belt.
- Compatible with the GRIPPS Tape Measure Latch and GRIPPS Tape Measure Holster.
- Compatible with virtually all tape measure brands and sizes from 5.0m - 8.0m/197" - 315".
- Maintains full tape measure functionality whilst secured.

CODE: H02056

MAX LOAD: 1.0kg | 2.0lbs

MONITOR/RADMAN HOLSTER

**ANSI/ISEA 121-2018
COMPLIANT**

Compatible with a wide range of monitors, including RadMan's, the Monitor/RadMan Holster allows safe transportation and operation of monitors when working at height.

Easily mounted to either work belts or harnesses, the Monitor/RadMan Holster uses a two-way Velcro mounting sleeve to secure itself to the user.

Use in conjunction with a Coil E-Tether with E-Catch to protect against drops.

KEY FEATURES

- Compatible with a wide range of monitors including RadMan's.
- Easily mountable to work belts or harnesses via a two-way Velcro mounting sleeve.
- Compatible with the GRIPPS Coil E-Tether With Poly Clip.

**ANSI/ISEA 121-2018
COMPLIANT**

A real game-changer when it comes to securing power tools for working at height, the Battery Catch Holster combines hot-swap flexibility with zero operational impact. A reinforced nylon housing with adjustable strap makes the Battery Catch Holster compatible with virtually all power tool brands.

By turning your battery pack into a hot-swappable tool tether point, you can rapidly tether power tools as required by simply plugging in the battery. Traditional tethering methods for power tools, such as tether anchors and hitch's, impact usability by taking up grip space. The Battery Catch Holster avoids this through intelligent, flexible design that keeps right out of the way when you're working.

KEY FEATURES

- Tethers your power tool and battery in a singular holster.
- Compatible with virtually all power tool brand batteries.
- Ability to remove and plug battery into power tools whilst inside the holster.
- Tough reinforced nylon housing for long term durability.
- No impact on grip area, affecting power tool usability.

CODE: H02032

MAX LOAD: 4.5kg | 10lbs

KITS

THE DROP BOX

Supplied fully stocked, with setup and on-site installation options available. Included with The Drop Box is on-site training for work-site or retail store workers in best-practice use of the GRIPPS range.

A true turn-key solution, The Drop Box provides 100% support for your work-site dropped tool prevention policy and ensures that all of your site workers have ready access to a comprehensive range of drop tool prevention equipment.

KEY FEATURES

- Industrial duty 0.6mm x 1.0mm/0.02" x 0.04" steel construction.
- Lockable keyed doors with 3 locking points.
- Sliding draw and fixed height work bench.
- Pegboard panel for hooks.
- Louvred panel for plastic tubs.
- Quality durable powder coat finish.

TAPE MEASURE LATCH KIT

The Tape Measure Latch Kit combines the GRIPPS Tape Measure Latch with the Tape Measure Catch, creating an all-in-one tape measure tethering solution.

Compatible with virtually all tape measure brands from 5m - 8m/197" - 315", the Tape Measure Latch Kit is a robust and compact piece of kit featuring built-in retractor, 2 load rated D-Rings, Swivel Catch and a Tape Measure Latch.

Designed for working at height, the Retractable Tape Measure Holster keeps your tools secure and accessible in a lightweight and industrial-grade design. The robust and compact Tape Measure Holster suits all standard tape measure sizes.

Developed in the USA, the built-in retractor technology is the result of extensive research and on-site trialling. It features a locking system to remove tension from the tether while working with your tools.

- 1 x H01067 Webbing Wrist Tether Single-Action
- 1 x H01010 V-Gripp Tape
- 6 x H01005 Tool Catch
- 3 x H01006 Tool Catch
- 1 x H01057 Dual Arm Tool Hitch
- 3 x H01030 Screwlock Cable
- 3 x H01031 Screwlock Cable
- 1 x Kit Bag

10 TOOL TETHER KIT WITH BULL BAG

CODE: H01400

The ideal kit for the worker with occasional at-height tasks. The 10 Tool Tether Kit With Bull Bag features the core items that make up the GRIPPS drop-prevention system, and is designed to cater for 10+ tools.

KIT CONTENTS

- 6 x H01005 Tool Catch
- 3 x H01006 Tool Catch
- 1 x H01057 Dual Arm Tool Hitch
- 2 x H01073 Bungee Tether Dual-Action
- 1 x H01010 V-Gripp Tape
- 1 x H01085 Slip-On Wrist Anchor (Medium)
- 1 x H01067 Webbing Wrist Tether Single-Action
- 1 x H01110 Bull Bag
- 2 x H01021 Swivel Catch
- 3 x H01030 Screwlock Cable
- 3 x H01031 Screwlock Cable

V-GRIPP TAPE & TOOL CATCH KIT

CODE: H01417

Get to work right away with the V-Gripp Tape & Tool Catch Pack. This pack covers you for up to 6 tools, with two Tool Catch size variations covering tool weights up to 2.5kg/5.0lbs.

KIT CONTENTS

- 1 x H01010 V-Gripp Tape
- 3 x H01005 Tool Catch
- 3 x H01006 Tool Catch

Installation Instructions

Cut a length of V-Gripp Tape approximately 30cm/1.0" (or enough to go around the tool 10 times). Position the Tool Catch on the tool. Apply V-Gripp Tape, pulling it tight and without covering the 'Catch' on the Tool Catch.

NO HEAT OR ADDITIONAL PROCESS REQUIRED!

MAX LOAD	SIZE
1.0kg 2.0lbs	12mm x 55mm 0.5" x 2.0"
2.5kg 5.0lbs	25mm x 90mm 1" x 3.5"

SCAFFOLDERS KIT

5 TOOL RETRACTABLE

CODE: K02027-C

The fully tethered Retractable 5 Tool Scaffolders Kit comes fully assembled with five quality tools and retractable steel tethers, installed on a premium reinforced form-poly belt.

Lightweight, functional and extremely heavy-duty, these kits are engineered to provide today's Scaffolders with a tool system that out-performs expectations and is recognised as 'best practice' in the industry.

KEY FEATURES

- Reinforced form-poly belt with 5 holsters.
- Fully certified and load rated.
- Rigorously site tested.
- Lightweight and ergonomic.

KIT CONTENTS

- 1 x GRIPPS Sports Bag
- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02062 Claw Hammer Holster
- 2 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02018 Retractable Single Tool Holster
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H01073 Bungee Tether Dual-Action
- 2 x H01030 Screwlock Cable
- 4 x H01021 Swivel Catch
- 1 x H02056 Tape Measure Catch
- 1 x D25010 Scaffolders Tape Measure
- 1 x D13001 Claw Hammer
- 1 x K00070 Scaffold Ratchet
- 1 x D28313 Shifter 10"
- 1 x D17010 Stabila Scaffolders Level
- 3 x H01120 Steel Cable Retractor Unit

5 TOOL BUNGEE & COIL

CODE: K02026

The fully tethered Bungee & Coil 5 Tool Scaffold Kit comes fully assembled with five quality tools and certified GRIPPS bungee and coil tool tethers, installed on a premium reinforced form-poly belt.

Lightweight, functional and extremely heavy-duty, these kits are engineered to provide today's Scaffolders with a tool system that out-performs expectations and is recognized as 'best practice' in the industry.

KEY FEATURES

- Reinforced form-poly belt with 5 holsters.
- Fully certified and load rated.
- Rigorously site tested.
- Lightweight and ergonomic.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02017 Single Tool Holster

SCAFFOLDERS KIT

5 TOOL RETRACTABLE UK

CODE: K02022

The fully tethered Retractable 5 Tool UK Scaffolders Kit comes fully assembled with five quality tools and retractable steel tethers, designed specifically for the UK market, all installed on a premium reinforced form-poly belt.

Lightweight, functional and extremely heavy-duty, these kits are engineered to provide today's Scaffolders with a tool system that out-performs expectations and is recognized as 'best practice' in the industry.

KEY FEATURES

- Ultra-lightweight and strong Nylon belt with 5 holsters.
- Fully certified and load rated.
- Rigorously site tested.
- Cost effective.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02062 Claw Hammer Holster
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H02056 Tape Measure Catch
- 1 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02049 Retractable Scaffold Key Holster
- 1 x H01073 Bungee Tether Dual-Action
- 1 x H02019 Retractable Single Tool Holster With Auto-Lock
- 3 x H01021 Swivel Catch
- 3 x H01030 Screwlock Cable
- 1 x K00045 Steel Scaffold Key 7/16
- 1 x K00082 Scaffold Ratchet 19-21 Flush Super
- 1 x D17010 Stabila Scaffolders Level
- 1 x D25010 Scaffolders Tape Measure
- 1 x D13003 Claw Hammer

5 TOOL RETRACTABLE UK

CODE: K02023

The fully tethered Retractable 5 Tool UK Scaffolders Kit comes fully assembled with four quality tools and retractable steel tethers, designed specifically for the UK market, all installed on a premium reinforced form-poly belt.

Holster your power tools quickly and securely with the included BOA holster and Tool Grapple®. The self-locking hook immediately captures and secures your power tool by simply dropping it into the holster.

Lightweight, functional and extremely heavy-duty, these kits are engineered to provide today's Scaffolders with a tool system that out-performs expectations and is recognized as 'best practice' in the industry.

KEY FEATURES

- Ultra-lightweight and strong Nylon belt with 5 holsters.
- Fully certified and load rated.
- Rigorously site tested.
- Cost effective.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H02056 Tape Measure Catch
- 1 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02049 Retractable Scaffold Key Holster
- 1 x H02019 Retractable Single Tool Holster With Auto-Lock
- 4 x H01021 Swivel Catch
- 2 x H01030 Screwlock Cable
- 1 x K00045 Steel Scaffold Key 7/16
- 1 x D17010 Stabila Scaffolders Level
- 1 x D25010 Scaffolders Tape Measure
- 1 x H01122 Tool Grapple®
- 1 x H02031 BOA Battery Tool Holster

FORMWORKERS KIT

5 TOOL RETRACTABLE (BOLT-SAFE POUCH EDITION)

CODE: K02030

The fully tethered Retractable 5 Tool Formworkers Kit comes fully assembled with five quality tools and retractable steel tethers, installed on a premium reinforced form-poly belt.

Lightweight, functional and extremely heavy-duty, these kits are engineered to provide today's Formworker with a tool system that out-performs expectations and is recognized as 'best practice' in the industry.

KEY FEATURES

- Bolt-Safe Pouch to secure small items such as nuts and bolts.
- Reinforced form-poly belt with 5 holsters.
- Fully certified and load rated.
- Rigorously site tested.
- Lightweight and ergonomic.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02101 Bolt-Safe Pouch
- 1 x H02018 Retractable Single Tool Holster
- 2 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H02062 Claw Hammer Holster
- 1 x H01073 Bungee Tether Dual-Action
- 1 x H02056 Tape Measure Catch
- 1 x D25010 Scaffolders Tape Measure
- 1 x D13001 Claw Hammer
- 1 x D28313 Shifter 10"
- 1 x K00070 Scaffold Ratchet
- 1 x D22060 Knipex Nips

5 SKIN RETRACTABLE (BOLT-SAFE POUCH EDITION)

CODE: K02031

Complete with five retractable holsters and a Bolt-Safe Pouch on a Reinforced Synthetic Work Belt, the 5 Skin Scaffolders Kit enables the wearer to customise their tooling.

The GRIPPS range of holsters and pouches feature fully load rated attachment points for tethering, as well as load rated retractable steel tethers.

KEY FEATURES

- Bolt-Safe Pouch to secure small items such as nuts and bolts.
- Five Holsters with retractor units.
- Fully load rated tether anchors for additional tethering points.
- Premium quality and lightweight.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02101 Bolt-Safe Pouch
- 1 x H02018 Retractable Single Tool Holster
- 2 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H02062 Claw Hammer Holster

SLIP-ON WRIST ANCHOR WITH TOOL TETHER

Lightweight, no-fuss and fully load rated, the Slip-On Wrist Anchor is a favourite amongst all trades. Coupled with the Webbing Wrist Tether Single-Action, you have everything you need to secure your tool against drops.

If you want a cost-effective tether anchor for working with hand-tools at height, you can't go wrong with the Slip-On Wrist Anchor. Available in three different sizes, simply slip on, tether your tool and get to work.

KEY FEATURES

- Includes 1 x H01067 Webbing Wrist Tether Single-Action.
- Light, flexible and strong.
- Fully load rated tether anchor point.
- Three different sizes available.

Length: 25cm 10"		MAX LOAD: 2.5kg 5.0lbs	
SIZE:	SMALL	MEDIUM	LARGE
CODE:	H01087-S	H01087-M	H01087-L

ADJUSTABLE WRIST-ANCHOR WITH TOOL TETHER

Tether your hand tools with comfort and security using the Adjustable Wrist-Anchor. This one-size-fits-all wristband features a built-in fully load rated tether point for total tool control without the risk of snags or tangles. Coupled with the Webbing Wrist Tether Single-Action, you have everything you need to secure your tool against drops.

Industrial grade Velcro repels dust, grease and grime to keep your Adjustable Wrist-Anchor firmly secured at all times, while tactical elastic webbing protects against tears.

KEY FEATURES

- Includes 1 x H01067 Webbing Wrist Tether Single-Action.
- Industrial grade Velcro adjusts diameter to suit all users.
- Fully load rated tether point.

CODE: H01088

Length: 25cm 10"		MAX LOAD: 2.5kg 5.0lbs	
SIZE:	ONE SIZE FITS ALL		

LITTLE GRIPPER KIT

Engineered with mobility for handheld tools in mind, the Little Gripper creates a secure and fully load rated connection point through its flexible collaring system. By mounting on the shaft of a tool, the Little Gripper allows full use of the butt end. 360-degree mobility prevents entanglement and allows for full mobility even in tight spaces.

For tools with a shaft up to 9.0mm/0.5", create a tool connector point with one Little Gripper pushed against the butt of the tool, or with two Little Grippers facing each other. A GRIPPS Webbing Wrist Tether Single-Action 2.5kg/5.0lbs will then clip directly onto the tool shank.

For tools with a shaft thicker than 9.0mm/0.5", use a GrippLink in the middle of two Little Grippers to create a rotating, load rated tool connector point for your tether of choice.

KEY FEATURES

- Moulded from custom German engineered TPU compounds.
- No additional adhesives or tools required for application.
- UV protected for long-lasting outdoor use.
- Compatible with tool shafts of all shapes and thickness.
- Free spinning tool connector point preventing tangles and catches.

WITHOUT GRIPPLINK

BATTERY TOOL HOLSTER BELT RETRACTOR KIT

CODE: H02031P

Protect your battery power tools against drops with this economic kit.

Create an instant load-rated tool connector point by choking the Swivel Catch around the closed handle of your power tool, then tether to your work belt via the retracting Tool Grapple®.

Simply drop your power tool into the BOA Holster to keep it secure at all times when not in use.

KIT CONTENTS

- 1 x H02031 BOA Holster
- 1 x H01021 Swivel Catch
- 1 x H01122 Tool Grapple®

BATTERY CATCH HOLSTER BELT RETRACTOR KIT

CODE: H02032P

Protect your battery power tools against drops with this economic kit.

Compatible with all standard work belts, the retractable Tool Grapple® connects to your battery tool via the easy to install Battery Catch Holster, which creates a fully load rated tool connector point by securing around the battery of your power tool.

Simply drop your power tool into the BOA Holster to keep it secure at all times when not in use.

KIT CONTENTS

- 1 x H02031 BOA Holster
- 1 x H02032 Battery Catch Holster
- 1 x H01122 Tool Grapple®

SCAFFOLD COMPONENT TETHERING

SCAFFOLD COMPONENT TETHERING

JORDAN SAFETY CLAMP

CODE: K04100

The Jordan Safety Clamp provides a safe anchor point above head height at all times. It allows instant access and continuous protection during all work and scaffolding operations and does not slow down or impede operations.

The scaffolder is secure at all times yet still has freedom of movement and can add or remove scaffolding components without unclipping their safety lanyard.

JORDAN BOARD CLAMP

CODE: K04105

The Jordan Board Clamp provides a safe and secure method of lifting wooden boards.

Compatible with 210mm-225mm/8.25"-9.0" boards, simply position the clamp 1/3 of the way down the board and lift using a gin wheel and rope.

Max Load: 40kg | 88lbs

SCAFFCLAW

An evolution in lifting scaffold tubes, the ScaffClaw replaces knots with interlocking sets of stainless steel teeth.

Quicker and safer than depending on personnel to tie a rope around scaffold tubes for lifting, just use the certified ScaffClaw – your 'all-in-one' scaffold tube lifting device.

Compatible with scaffold tubes 50mm-60mm/2.0"-2.5" in diameter, the design of the ScaffClaw allows it to strengthen its grip when the load weight increases, allowing it to lift up to 20kg/44lbs in weight.

The rotating fully load rated eyelet connects to virtually any kind of tether, giving you complete flexibility to integrate the ScaffClaw with existing lifting setups.

Max Load: 20kg | 44lbs

CODE: H01095

DROP MATS

DROP MATS

DROP MAT

Made from a heavy-duty, self-extinguishing canvas, The GRIPPS Drop Mat provides a safe personal work area for works conducted on Gridmesh or steel grate flooring.

Gridmesh and steel grate flooring present one of the highest risks when it comes to dropped object incidents. The Drop Mat mitigates this by allowing workers to conduct virtually any task without fear of small objects falling through the mesh.

Conveniently located and fully load rated tether anchor points allow workers to attach any tool weighing up to 3.0kg/6.5lbs to the mat itself. Velcro knee pads add an extra level of practicality and comfort, with the added benefit of being able to be moved around and reattached to the drop mat to suit different work environments.

Raised edges prevent tools and objects from rolling off the mat, and a reinforced zip running along each side allows you to connect multiple Drop Mats for even broader coverage.

Transportation is made simple as the GRIPPS Drop Mat folds up into a handy parcel size with twin carabiners that connect to matching docking points on the GRIPPS Mule Bag.

SIZE WHEN OPEN	SIZE WHEN FOLDED	MAX LOAD
110cm x 108cm x 5cm 43" x 42" x 2"	53cm x 28cm x 9cm 21" x 11" x 3.5"	3.0kg 6.5lbs

CODE: H01307

KEY FEATURES

- Heavy-duty 26oz. self-extinguishing canvas.
- Moveable Velcro kneeling pads.
- Eight fully load rated D-Rings for tethering tools.
- Zips on each side allow you to attach an unlimited number of Drop Mats to each other.
- Folds up and attaches directly to the GRIPPS Mule Bag through purpose-made carabiners.

DROP MATS

GRIPPAIR

GRIPPAIR – SOFT TREAD CONTAINMENT MATTING

CODE: H01315-90

GrippAir is designed and manufactured in Australia from non-toxic food grade PVC tubes, providing excellent longevity as well as comfort and support underfoot. As a Gridmesh overlay, GrippAir makes workplaces and recreation environments safer by providing protection against objects dropping through the Gridmesh.

Constructed in a grid formation, GrippAir is both flame and chemical resistant and can be installed in minutes on even or uneven surfaces. Easy to roll up and clean, GrippAir is reusable and can be cut to any size or shape.

KEY FEATURES

- Cushioned soft tread reduces fatigue.
- Long lasting and reusable.
- Fire resistant.
- Excellent slip resistance.
- Suitable for the marine environment.
- UV resistant.
- Easy to fit and clean.
- Made from 100% food grade materials.
- Australia made.
- Chemical, oil and acid resistant.

Available in 3 sizes

Resistant to flame DIN 4102 part 1
Classification B2 Limiting Oxygen index 20

Self Extinguishing

GRIPPLITE

GRIPPLITE – GRID MESH CONTAINMENT MATTING

CODE: H01310-90

GrippLite is designed and manufactured in Australia from non-toxic food grade PVC tubes, providing excellent longevity as well as comfort and support underfoot. As a Gridmesh overlay, GrippLite makes workplaces and recreation environments safer by providing protection against objects dropping through the Gridmesh.

Constructed in a grid formation, GrippLite is both flame and chemical resistant and can be installed in minutes on even or uneven surfaces. Easy to roll up and clean, GrippLite is reusable and can be cut to any size or shape.

KEY FEATURES

- Long lasting and reusable.
- Fire resistant.
- Impervious to most liquids, acids and hydrocarbons.
- Excellent slip resistance.
- Suitable for the marine environment.
- UV resistant.
- Easy to fit and clean.
- Made from 100% food grade materials.
- Australia made.

Available in 3 sizes

Resistant to flame DIN 4102 part 1
Classification B2 Limiting Oxygen index 20

Self Extinguishing

FR DROPPED OBJECT PREVENTION MAT

Fire retardant and cost-effective, the FR Dropped Object Prevention Mat allows personnel to work on grating while protecting their tools and equipment from falling through the grating.

The FR Dropped Object Prevention Mat is easy to carry and work on. Highly effective in protecting personnel and contractors from dropped objects, the high-quality fabric has a reinforced 'safety yellow' hem to secure the sides of the mat.

KEY FEATURES

- Fire retardant.
- 6 x Tether anchors (Webbing & D-Ring).
- Eyelets around perimeter.
- High quality fabric.
- Reinforced 'safety yellow' hem.

SIZE	CODE:
2.5m x 1.0m 98" x 39"	H01305

FOAM EDGE DROPPED OBJECT CATCHMENT MAT

The Foam Edge Dropped Object Catchment Mat is made from tough, heavy-duty material with a 5.0cm/2.0" foam edge.

Lightweight and extremely functional, it can be rolled or folded up when not in use for ease of transportation and storage.

KEY FEATURES

- Made from heavy-duty material.
- 5.0cm/2.0" foam edge.
- Available in a range of sizes.
- Lightweight and very functional.
- Roll or fold up for storage and transportation
- Fire retardant option available.

SIZE	CODE:
1.2m x 1.2m x 5.0cm 47" x 47" x 2.0"	H01300
1.2m x 90cm x 5.0cm 47" x 35" x 2.0"	H01302

DROP ZONE MANAGEMENT

DROP ZONE MANAGEMENT

MANDATORY SIGN

CODE: HS-4010

Corflute mandatory sign.

"TOOL TETHERS MUST BE USED WHEN WORKING ABOVE 2 METRES".

Custom branding available.

Complies with AS 1319 regulations.

DROP ZONE BARRIER TAPE

CODE: HS-3010

Heavy-duty reflective barrier tape displaying "DANGER DROP ZONE" with high-vis red stripes, for creating a temporary drop zone.

WIDTH	LENGTH
5.0cm 2.0"	100m 33'

BUNTING SAFETY FLAGS ON ROPE

Hi-vis orange flags on rope-line displaying: "DANGER DROP ZONE"

DROP ZONE MANAGEMENT

SECURPULLEY GIN WHEEL – AUTO BRAKING

MAX LOAD

50kg | 110lbs

Just let go of the rope, and the load stops automatically! The SecurPulley provides a far safer method of lifting materials with much less risk than conventional gin wheels.

The SecurPulley is made in Italy and is fully certified to a maximum load rating of 50kg/110lbs.

Weighing only 5.0kg/11lbs, the installation process is rapid and user-friendly. Each SecurPulley is supplied with a fixed scaffold mounting arm.

CODE: M06020

SWIVEL MOUNTING ARM

SIZE

77cm x 10cm x 52cm
30" x 4.0" x 20"

The Lightweight Swivel Mount allows for safe transition of loads that have been lifted using a SecurPulley.

NOTE: SecurPulley unit is purchased separately.

CODE: M06021

TETHER READY TOOLS

TETHER READY TOOLS

SCAFFOLD KEY 1/2

CODE: K00043

Premium quality stainless steel 1/2, scaffold key with poker handle. Includes swivel anchor point.

SIZE: 1/2 Whitworth

MATERIAL: Stainless Steel

SCAFFOLD KEY 7/16

CODE: K00045

Premium quality stainless steel 7/16, scaffold key with poker handle. Includes swivel anchor point.

SIZE: 7/16 Whitworth

MATERIAL: Stainless Steel

STAINLESS STEEL SCAFFOLD KEY 1/2

WITH COIL TETHER SINGLE-ACTION

CODE: K00044

Scaffold key engineered for safety at height. Heavy-duty 12 point head. Fail-safe swivelling anchor point. Includes integrated Coil Tether Single-Action.

SIZE: 1/2 Whitworth

MATERIAL: Stainless Steel

Includes 1 x H01068 Coil Tether Single-Action

Tether Min Length: 40cm | 16"

Tether Max Length: 160cm | 63"

Tether Max Length: 160cm | 63"

Tether Max Load: 1.0kg | 2.0lbs

TETHER READY TOOLS

SHIFTER

CODE: D28313

Industrial quality drop forged chrome vanadium steel. Compatible with H02048 Ratchet/Wrench Holster.

SIZE: 25cm | 10"

STABILA SCAFFOLDERS LEVEL

CODE: D17010

German Quality, with heavy-duty magnets.

KNIPEX NIPS W/TOOL CATCH

CODE: D22060

Quality German Nips with soft grip handle and attached tool connector.

SIZE: 20cm | 8.0"

SCAFFOLDERS TAPE MEASURE

CODE: D25010

The genuine Scaffolders Tape Measure includes a range of features to make it ideally suited for the challenges faced by Scaffolders every day.

KEY FEATURES

- Compatible with H02056 Tape Measure Catch.
- Powerful magnetic end hook with four rivets.
- High impact case.
- Abrasion resistant blade and mechanism.

SIZE: 8.5cm x 8.0cm x 4.5cm | 3.25" x 3.0" x 1.75"

SCAFFOLD RATCHET

Used by thousands of Scaffolders around the globe, Scaffold Ratchets have consistently proven themselves as outstanding performers.

Engineered from premium grade forged steel, incorporating the heaviest duty mechanism available and balanced to perfection, these ratchets provide a trusty and integral component in every Scaffolders tool kit.
