

Build better with DIRTT

Clean, rapid construction. Total design freedom.

As a preferred DIRTT partner, we can provide optimal sub-trade solutions that are an agile, flexible alternative to fixed construction. DIRTT is revolutionizing the construction industry by using gaming technology to create prefabricated interior solutions that allow for complete design freedom.

From faster project completion times to improved worksite safety, the benefits of our solution speak directly to efficiency, quality and profitability.

This partnership enables us to provide high-quality environments that are attractive, adapt to future change, and are more environmentally responsible, all at a cost similar to conventional construction.

As your client's needs change, DIRTT and Continental Office will work to change with them. Whether they're planning for today or tomorrow, we'll help you get them wherever they're going.

Flexibility designed to suit your client's needs

We challenge the status quo and strive to change the way you think about how your clients view work. Our DIRTT solution:

Uses the latest technology to fit your plans with pre-engineered solutions

DIRTT's forward-thinking software, ICE, removes the guesswork from construction by producing real-time design changes, pricing, material specifications, and an interactive 3D experience.

Helps save money with high-quality, sustainable materials

Cost certainty lets you know what you're paying without any changes. Embracing DIRTT's design and manufacturing technology can often reduce project schedules, resulting in potential project cost savings. Everything is manufactured to precise standards, eliminating waste in resources, saving money over time.

Gets you skilled support

With a network of partners across the country, DIRTT can deliver projects to where you need them most. DIRTT's team members can create a custom set of robust interface elements that support reconfiguration, extreme levels of customization, and distributed manufacturing.

Provides a safer work environment

Keep your workers safe with ready for installation options. With DIRTT's components arriving partially or fully assembled and ready for installation, your construction zone instantly becomes safer. Fewer tools are needed, minimal offcuts and debris to work around.

We support:

Property Lifecycle

1. Acquisition/
Real Estate

2. Design/A & D

3. Build/General
Contractors

4. Maintain/
Property
Management

Continental Office
