

Deep Clean and Disinfect for Your Return

Let us help you adhere to governmental guidelines by keeping your space safe and clean, with our regular cleaning and disinfecting services.

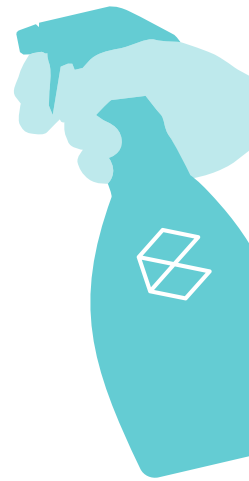

How We Can Help:

One: You'll have peace of mind knowing we use a **hospital-grade disinfectant** on the EPA's list of disinfectants that kills bacteria and viruses, including COVID-19.

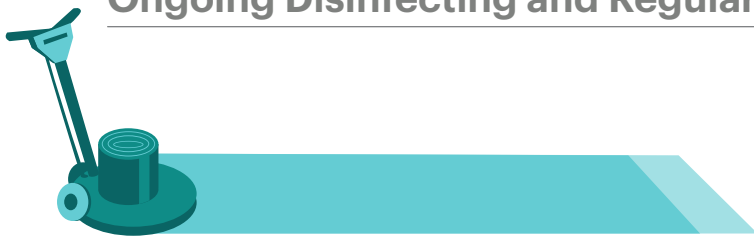

Two: We'll respond quickly and affordably so you can get back safely.

Three: You'll feel confident knowing our team (not outsourced contractors) is cleaning your space with over 10 years of furniture and floor cleaning experience.

Four: By providing a deep cleaning of and wiping down all furniture and floors.

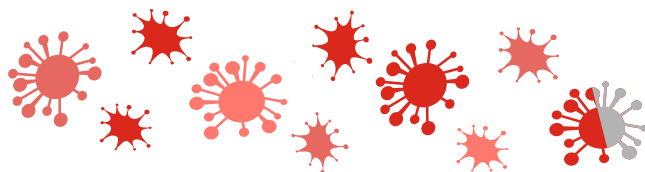

Ongoing Disinfecting and Regular Cleaning is Paramount:

96% of today's workforce wants increased cleaning and disinfecting protocols on a regular basis.

90% of workers want to know what their company's cleaning process is.

95% of people expect the workplace to be fully disinfected prior to returning and rate it important.

88% of C-level leaders will be changing cleaning and disinfecting policies as well as openly sharing that with their employees.
