

Continental Office Return to Work Assistance

Let us help you adhere to governmental guidelines, help keep your space safe and clean, and maintain your culture while improving productivity whether in the office or working from home.

What We Know:

01 Ongoing Disinfecting and Regular Cleaning is Paramount

96% want increased cleaning and disinfecting protocols on a regular basis.

02 Reconfiguring Space for Physical Distancing is a reality

58% of C-level leaders are planning to redesign their workplace (33% are undecided).

03 Part-Time Remote/Work From Home is the New Normal

74% of people ages 25-44 want WFH options and **53%** of people ages 45-64 do also.

04 People Can Be Productive While Working From Home

72% of people feel as productive if not more productive at home but **73%** would like a better home office set up.

05 People Still Want a Physical Workplace

94% of people still want a physical workplace to work in at times.

06 People Miss the Physical Workplace

72% miss the social aspect of being with co-workers.

How We Can Help:

Cleaning/disinfecting:

Our hospital-grade disinfectant is on the EPA list to kill bacteria and viruses including COVID-19.

We can schedule regular, ongoing disinfection and deep cleaning for your furniture and floors.

Safety Signage

From physical distancing to room capacity and CDC safety guidelines, we can quickly and affordably provide all your signage needs.

Physical Distancing

Whether it's seating, common areas, or workstations, we can help you reconfigure for 6 feet of physical distancing.

Safety and Work From Home Products:

Whether it's an ergonomic chair, sit-to-stand desk, or monitor arms, we've got the options you need.

We have a wide variety of screens, panels and dividers to help your teams feel safe and protected.

We can help you source readily available PPE.
