Business Continuity Management Launch Email

To develop our Business Continuity Plans we are working with BCarm using their cloud-based Business Continuity Management system.

You will be receiving / have received an email with login details and a link from info@bcarm.co.uk. If you can't find it just check your Junk folder. When you first login you will be asked to setup a PIN.

When you login to the BCarm Business Continuity system, you will see a Dashboard of different BCP activity and a list of the Plans you are attached to.

To access your Plans, select **My Plans** on the menu and then select the Plan you want to work with; the full system menu will open for you.

If you are the BCP Administrator or a Plan Administrator you will have more options to create and manage Plans and to authorise activity in the system.

If you would like an orientation session of the system then click here to arrange a webinar meeting with the BCarm Engagement Team. They are on hand to provide you with whatever support you need to develop our Health & Safety arrangements.

The BCarm Client Engagement team provides unlimited system support. Please call **0800 879 9981** to speak to a member of the team, email **info@bcarm.co.uk** or click here to arrange a webinar.
