

# Cloud Cost Optimisation

Simple, effective management of your cloud spend.

Organisations are migrating workloads into public cloud services without understanding ongoing cloud cost management.

Are you in control of your cloud account cost and utilisation?

Improve efficiency of your digital business by confidently controlling your cloud environment to stop costs and usage from spiralling out of control.

#### COST REDUCTION AND FULLY OPTIMISED CLOUD USAGE

- Identify your exact cloud spend
- Uncover cost savings
- Massively improve the ROI of your cloud with a typical 30% reduction in cloud expenditure

#### ELIMINATE CLOUD WASTE

- Track cloud usage to target inefficiencies
- Rapidly identify instances which can be terminated or consolidated to reduce waste
- Optimise unused and oversized cloud resources

#### CONFIDENCE AND CONTROL OVER CLOUD SPENDING

- Increase your visibility into cloud usage
- Increase your control over the different cost centres
- Accurately forecast and plan your application costs

#### LIBERATE YOUR TEAMS

- Benefit from deep cloud expertise and automated processes
- Free up your IT team to focus on critical business IT
- Transform your business with a cloud-first culture

#### REDUCE OPERATIONAL OVERHEAD AND COMPLEXITY

- Streamline your cloud payments
- Remove the complexity of multiple teams paying from multiple cards
- Remove the headache of multiple administration tasks and untracked spend

To enjoy **new levels of visibility and control** over your cloud footprint, you need to ensure your **cloud spend is continuously optimised.**
