# Enterprise-Grade
SD-WAN

A game-changer for the digital business.

Businesses won't survive for very long unless they take back control of their network and upgrade their WAN.

As organisations accelerate the adoption of cloud-based applications, **existing WAN environments are holding them back.**

CIO
"The network is slow and not cloud aware"

BUSINESS USER
"Apps work better at home than they do in the office"

CISO
"The WAN is difficult to secure"

FD
"The WAN is proving more and more expensive to maintain"

Is your business crying out for more **flexibility**, **agility** and **performance** from your creaking network?

6 ways to stay competitive

ENABLING DIGITAL & CLOUD TRANSFORMATION
- Streamline how you move workloads to any cloud
- Easily consume cloud-hosted apps
- Simplify how you enable new services in remote locations

SUBSTANTIALLY LOWER WAN COSTS WITHOUT COMPROMISING SECURITY
- Save both CAPEX and OPEX
- Improve the performance of the WAN
- Lower costs by 50% or more with SD-WAN

RAPIDLY REDUCE DEPLOYMENT TIMES
- Enable faster, easier WAN deployment and operation
- Benefit from faster performance while using less bandwidth
- Deploy new revenue generating services in minutes—not months

DELIVER APPLICATION PERFORMANCE
- Transform the end user experience with a predictable SLA and no app outages due to networking
- Benefit from more reliable application performance
- Run applications faster and deploy in minutes

ENHANCED FLEXIBILITY
- Simplify WAN segmentation with a controller-based network
- Securely integrate separate networks onto the same WAN
- Get IT flexibility to any app, platform and connectivity

ROBUST SECURITY
- Easily and confidently support the explosion in new endpoints
- Securely segment and adopt new users and devices at speed
- Benefit from the security your existing WAN can't provide

By 2020, more than 50% of WAN edge infrastructure refresh initiatives will be based on SD-WAN versus traditional routers.

Standing still is not an option.

To not only survive but thrive, you need to embrace intelligent network technology that delivers on all fronts.

Contact us today to understand how enterprise grade SD-WAN from Ideal can be a game-changer for your digital business.
