

# EPOXY AND POLYURETHANE COATINGS

Epoxies and polyurethanes provide durable finishes in industrial applications.

- Epoxy coatings have excellent solvent and corrosion resistance. Use in areas with high risk or regular exposure to abrasive chemicals.
- Polyurethanes are long lasting, highly durable, and abrasion resistant. Superior color and gloss retention.

## About FORREST Epoxy Coatings

Two-part chemical-resistant epoxy coatings protect equipment and working surfaces.

### Use cases for FORREST Epoxy

- Interior equipment
- Pumps and motors
- Industrial floors
- Safety stripping
- Industrial maintenance

### Benefits of FORREST Epoxy

- Durable
- Chemical resistant
- Abrasion resistant
- Corrosion resistant
- Non-skid options

## 19S SERIES

A high-performance, two-part polyamide epoxy coating system formulated to protect surfaces exposed to chemicals, solvents or abrasion. Suitable for application on new equipment, structural steel and concrete. Available in non-skid for floor applications.

## 19P SERIES

A polyamide epoxy coating primer for use under high-performance fast-dry topcoats. Excellent corrosion resistance and chemical resistance.

## About FORREST Polyurethane Coatings

Polyurethanes are long-lasting, durable, and abrasion resistant. They have superior color and gloss retention.

### Use cases for FORREST Polyurethane

- Industrial equipment
- Agricultural equipment
- Exterior structural steel
- Architectural structures
- Exterior tanks

### Benefits of FORREST Polyurethane

- Excellent color and gloss retention
- Application across multiple substrates
- UV resistant and appropriate for exterior use as a topcoat
- Custom colors available
- Chip resistant

## 35U SERIES

A high-performance, high-gloss, two-component acrylic polyurethane enamel with excellent gloss retention, exterior durability and fast-dry characteristics.

It is always recommended the user conduct tests to determine the suitability of the product for the intended use on appropriate substrates.
