

# air freshener instructions

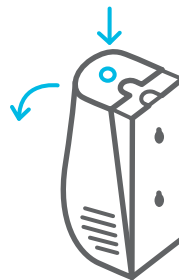

- 1 dispenser front cover
- 2 fragrance vents
- 3 security lock portal (optional)
- 4 wall mount holes
- 5 release button
- 6 tray (optional)
- 7 wall anchor
- 8 wall screw
- 9 security lock (optional)
- 10 security lock key (optional)
- 11 fragrance square (sold separately)
- 12 D battery (sold separately)

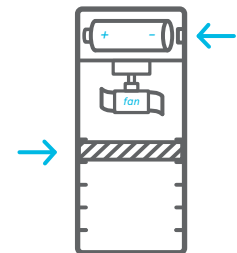

Dispenser provides 300-500 square feet of odor control. Place in a central location to optimize coverage.

- 1 Dispenser can rest vertically on flat surface or mount vertically on wall. Mount dispenser using wall anchor (7) & wall screw (8). Use wall mount holes (4) on back to securely hang the unit.

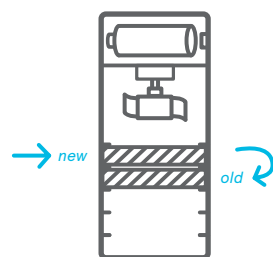

- 2 Open dispenser by pressing down on release button (5) & pulling the front cover (1) forward.

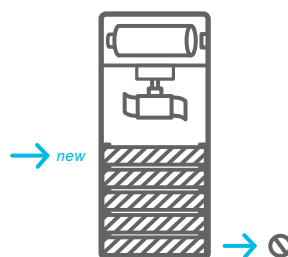

- 3 Remove one fragrance square (11) from packaging & insert in top row, closest to fan. Install D battery (12).

*Please note: Fan will start running automatically.*

- 4 After one month of use, move existing fragrance square down one row, & insert new square in top row, closest to fan.

- 5 Repeat process monthly. When all rows are filled, discard fragrance square in bottom row.

- 6 We offer multiple fragrances for your air fresheners (see back!) Order more fragrance squares at [zogics.com](http://zogics.com), email [orders@zogics.com](mailto:orders@zogics.com), or call 888.623.0088.
