Thinking about wipes vs. spray bottles?  
Let us break it down.

## GYM WIPES

no preparation required,  
just install dispensers

completely disposable,  
leaving no mess after use

wipes are stored in a fixed  
dispenser, minimizing messes

safest option for members,  
as there is no risk of misuse

free of bleach, phenol & alcohol:  
safe & effective on equipment

## SPRAY & TOWELS

disinfectant must be diluted,  
spray bottles must be refilled

paper products can be wasted,  
rags must be washed regularly

spray bottles & cloth towels  
can be misused or stolen

chemicals are sprayed in the  
air while others are exercising

excess spraying can damage  
equipment & control panels
