

# Mobile Tank Cleaning Unit

**RS-MTCU-300** patented

**Will Fit Your Industrial Refinery Tank Cleaning Needs**

- 4" Cam & Groove Hose Connections
- Fully Automated PLC
- Submersible Return Pump
- Tank Clarification Technology
- Hot/Cold Electric Pressure Washers
- Single Shaker System
- Hydraulic Power Unit
- Centrifugal Pump System
- Insulated & Climate Controlled
- Tank Level Indicators
- SC40RA Tank Cleaning Tool

## SC40RA Tank Cleaning Technology:

The SC40RA is a single nozzle tank cleaning machine especially developed for sector cleaning tanks/cisterns/vessels in hazardous ATEX classified areas.

- 2" ANSI 150# Connection
- 360 Degree Spray Pattern
- Pneumatic
- 8" 150# Mounting Flange
- 4 x 12mm Nozzles

## Notable Aspects:

- Various Engineered Certifications; 35 BBL's of wash fluid obligation
- Explosion proof; Class 1 Div 1 or Class 1 Div 2
- Cleaning operation processed from unit only! No Entry into the tank during operation; single man Operation
- Modular standalone adders to increase desired throughput capacities
- Fully Automated PLC System
