

Agile Velocity Corporate Agile Training

WE ARE NOW → **CUSTOMERS ARE IN CONTROL**
LIVING IN THE → **COMPETITION IS GLOBAL**
DIGITAL AGE. → **TECHNOLOGY EVOLVES RAPIDLY**

Less than 12% of Fortune 500 companies in 1955 were still on the list in 2017. For organizations to thrive in the Digital Age, they need a new way of delivering value.

When you get training and coaching from Agile Velocity, you know you're going to get quality training including interactive exercises, innovation games and training from the back of the room techniques rather than the typical stand up and read from a slide deck approach. Beyond actual classroom training, the on-site coaching and office hours proved to be critical to our transformation as a coach was there to observe, provide feedback, answer questions and really get us started by moving us to practice quickly. To my knowledge, Agile Velocity is the best in the business."

- KASASA BY BANCVue

Organizations like **Spotify** use **Agile** to overcome challenges and **win in the Digital Age**.

**Changing
Priorities**

**Team
Productivity**

**Project
Visibility**
