

by Seaman Corporation

Engineered for High Traffic Dock Applications

- Proven performance
- Speciality coated fabric
- Superior resistance to environmental conditions
- Durable and long-lasting

Made and Stocked
in the USA

For over 35 years, Seaman Corporation has been manufacturing fabric for dock seals for a variety of performance environments. Designed to withstand the rigors and abuse of daily usage, our original dock seal fabric has been proven to resist puncture, tears and abrasion. Shelter-Rite 22 ounce dock fabric is an economical solution for applications that endure less wear and tear. Shelter-Rite 40 ounce dock fabric is a superior product for high traffic docks. Customized products and fire retardant fabrics are also available.
