APPLICABLE SYSTEMS:

- GENERAL REFERENCE:
  - All Previous

- RAISED EDGE FLASHING
  - LIGHTWEIGHT CONCRETE

- FIBERCLAD METAL
- 2" Wide Aluminum Tape Over Joint
- 1/4" Gap

- Joint Treatment at Edge Metal
- 4" Wide Flashing Strip, Heat Welded in Place
- Butyl Sealing Tape (by Others)
- Ring Shank Nails (3" O.C.)
- Fasten with Galvanized Annular

- Continuous Galvanized Metal Cleat
- Fasten with Galvanized Annular
- Ring Shank Nails (3" O.C.)

- Wood Blocking
- Attached @ 250 LBF/FT

- Lightweight Concrete Per Specification Requirements

- Non-Fleece Back FTR Membrane Flashing
- FTR Membrane Flashing Strip
- Hot Air Weld

- FTR-Membrane Edge Flashing Strip

- FIBERCLAD METAL
- Butyl Sealing Tape (by Others)
- Ring Shank Nails (6" O.C.)
- FTR-Membrane Flashing Strip
- Hot Air Weld

- FTR-FB Membrane

- "FTR GS08-17"
- "FTR AD08-17"
