Re: FiberTite® FTR-490 Adhesive Use

## FiberTite® 490 Adhesive Usage Update

### 2019.001 - Page One of One:

FiberTite Roof Systems has made an update to the use of the *FTR-490 Adhesive*. Effective immediately, *FTR-490 Adhesive* is only approved for use on *FiberTite Fleece Back Membranes*.

The approved substrate list for FTR-490 Adhesive remains unchanged as follows:

- Polyisocyanurate Insulation
- Gypsum-Based Cover Board
- Approved Base Sheets
- Sealed Cellular Lightweight Insulating Concrete

*FiberTite FTR-190e* is the only adhesive approved for use to adhere all *FiberTite Bare-Back Membranes*.

### Warranty Update

**The use of FTR-490 Adhesive with FiberTite Bare-Back Membrane products is being discontinued for Seaman Corporation-issued warranties.** Seaman Corporation Authorized Contractors must submit current opportunities quoted or out to bid that use *FTR-490 Adhesive* with *FiberTite-SM Bare-Back Membranes* to FiberTite Technical Services by **January 1, 2020**, to be eligible for a Seaman Corporation-issued warranty. Existing Seaman Corporation-issued warranties in place are not impacted by this update.

Code Approvals for the use of *FTR-490 Adhesive* with *FiberTite Bare-Back Membrane* products will be removed from relevant databases within 30 to 90 days. Any questions regarding specifications for the use of *FTR-490 Adhesive* and roof system warranties can be directed to FiberTite Technical Services at 800.927.8578.

FiberTite Roof Systems set the highest standard for operational security across the globe; this means that our technical team is always looking at how we can improve the performance of our roof systems. Please see [FiberTite Product Data Sheets](#) and [Technical Bulletins](#) for the latest product, installation, and performance information at [FiberTite.com](#).
