ABOUT THE RANDSTAD WORKMONITOR
Background to Randstad Workmonitor (1)

• The Randstad Workmonitor was launched in the Netherlands in 2003, then in Germany, and now covers 34 countries around the world. The last country to join was Portugal in 2014. The study encompasses Europe, Asia Pacific and the Americas. The Randstad Workmonitor is published 4 times a year, making both local and global trends in mobility visible over time.

• The Workmonitor’s Mobility Index, which tracks employee confidence and captures the likelihood of an employee changing jobs within the next 6 months, provides a comprehensive understanding of sentiments and trends in the job market. Besides mobility, the survey addresses employee satisfaction and personal motivation as well as a rotating set of themed questions.
The study is conducted online among employees aged 18-65, working a minimum of 24 hours a week in a paid job (not self-employed). Minimum sample size is 400 interviews per country. The Survey Sampling International (SSI) panel is used for sampling purposes. The second wave of 2015 was conducted between April 17 – May 4, 2015 in the following countries:

- Argentina
- Australia
- Austria
- Belgium
- Brazil
- Canada
- Chile
- China
- Colombia
- Czech Republic
- Denmark
- France
- Germany
- Greece
- Hong Kong
- Hungary
