Payloader

The VIN's are located on the dash below the horn, stamped on the left side of the chassis beneath the driver's seat, and each OEM battery will also have a VIN label on one side of the casing.

Custom Platform

The VIN's are located on the top of the metal dash driver side, top right side of the cowl, stamped on the chassis, and driver's side in front of the battery tray, and each OEM battery will also have a VIN label on one side of the casing.

Expediter

The VIN's are located on the vertical panel below the seat, stamped on the right front corner of the rear body chassis under the rear deck, and each OEM battery will also have a VIN label on one side of the casing.

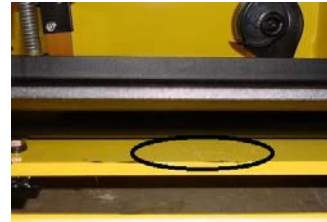

Stockchaser

The VIN's are located on the vertical panel to the right of the dash, stamped on the right side chassis under the front deck, and on each OEM battery will also have a VIN label on one side of the casing.

Chariot

The VIN's are located on the left side of the operator's position, stamped on the metal cross bar located under the foot treadle platform, and on each OEM battery will also have a VIN label on one side of the casing.

Utilitruck

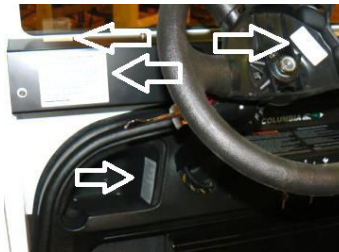

The VIN's are located under the steering wheel cover, in the passenger side glove box, on top of the driver side dash, under the front hood, and on each OEM battery will also have a VIN label on one side of the casing.

Journeyman

The VIN's are located under the steering wheel cover, the driver side dash, under the driver side seat, and on each OEM battery will also have a VIN label on one side of the casing.

Summit Utility

The VIN's are located under the steering wheel cover, on top of the dash, the driver's side glove box, and on OEM batteries will also have a VIN label on one side of the casing.

Eagle

The VIN's are located under the steering wheel cover in the passenger side glove box, on top of the driver side dash, under the front hood, and on each OEM battery will also have a VIN label on one side of the casing.

PTV EAGLE

The VIN's are located under the steering wheel cover, the driver side glove box and each OEM battery will also have a VIN label on one side of the casing.

Legacy & Shuttle / Gas & Electric

The VIN's are located under the steering wheel cover, in the driver side glove box, the passenger footwell, and on top of the driver side fender. This covers years prior to 2005 along with gas vehicles.

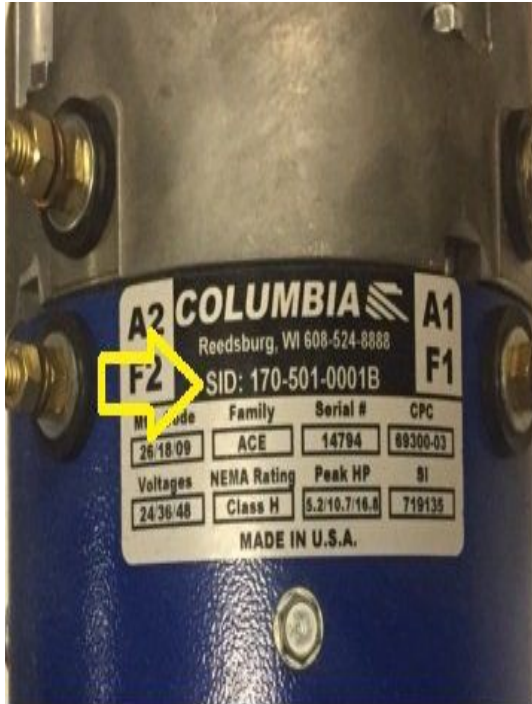

MEGA

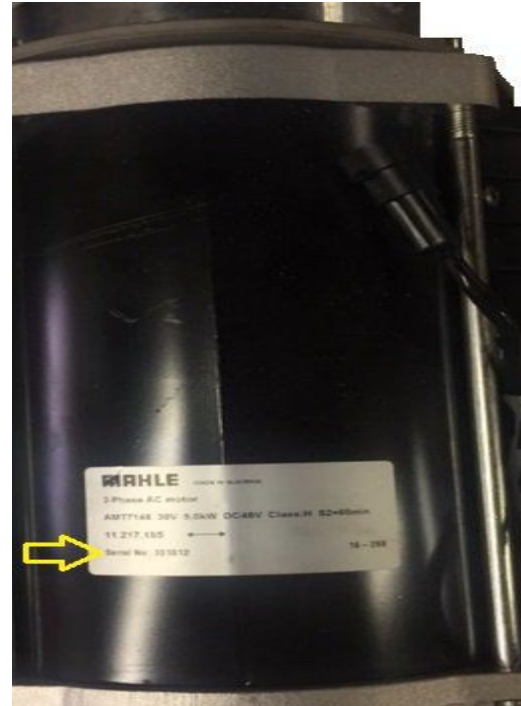

The VIN's are located under the steering wheel cover, on top of the driver's side dash, on the cabin base tub below the driver's seat, and on the OEM battery will also have a VIN label on one side of the casing.
