# Thaw

BY YELLOW GOAT DESIGN

A sliver of light, the slight rustle of the leaves.  
A single ray breaks through and the rhythmic "drip, drip,  
drip" blends with the cautious first chirp of the coming  
spring.

Heralded by a longed-for sun after many frozen dawns,  
our Thaw collection is a celebration of the changing of  
the seasons and the emergence of growth and renewed  
possibilities.

Punctuated by a series of chandeliers in various  
stages of "melt," this collection uses pops of color - a  
verdant green, the first glimpse of an azure blue sky -  
along with gold dipped pieces that celebrate the warm  
vibrant rays of our most beloved star.

SPRING/SUMMER 2019

# floe

This icy mass is both beautiful and dangerous. Its journey is only ended with the passage of time as it merges with the ocean to become a single body of water teeming with aquatic life. Made with printed acrylic suspended in perfect formation, Floe is a reminder of the transitory world of nature and the perfection in brief moments of change.

Materials: Acrylic and Aluminum  
Dimensions: 2' x 4'- 6" x 2'- 2" H

## azure

The first piercing blue of a spring sky through wintry slush is always the sweetest. Azure is in the very moment of shedding its frozen exterior (in the form of a beautiful acrylic chandelier) to allow the joy of a blue hue ring in warmer weather.

Materials: Hand Dyed Acrylic, Aluminum  
Dimensions: Ø 4' x 4' - 6" H

# solstice

This delicate design is an ethereal moment in the changing season, encasing the upper world in one last sculpture of ice while the earth below shoots upward, cracking through to welcome the coming spring.

Materials: Acrylic, Aluminum  
Dimensions: Ø1' x 6'-6" H

# sprouts

A single leaf unfurls and soon the world is fully foliated in green and golden hues. Our shy screen responds to the warmth of the kind sun and offers hints of new growth through an ingenious paper cut pattern.

Materials: Aluminum (Available in other colors)  
Dimensions: 4' x 8' each screen

# zephyr

The gentlest of winds announce the arrival of spring with a bountiful harvest of fruit and flowers. Our aluminum cirrus undulates in a wave pattern, adding the movement and mellowing of a warming west wind.

Materials: Aluminum  
Dimensions: 5'- 5" x 5'- 5"

# sunshower

The harbinger of rainbows, this golden acrylic chandelier imagines a meteorological fantasy of fish swimming in the sun-filled rain. Created by distant winds blowing raindrops into cloudless skies, a sunshower carries with it the folk legends of birth and weddings for a variety of mythological animals. And what is spring without a wedding?

Materials: Acrylic, Brass, Aluminum  
Dimensions: 2' x 4'- 6" x 2'- 2" H

## ray

These perfect points of light send the Sun's most anticipated news. Our ray screen showcases the pattern of a vital product, life-giving sunrays, in a bronze, bent metal formation that makes us want to stretch out and soak it all in.

Materials: Brass  
Dimensions: 4' x 8' each screen

# stellar

A celestial delight lights up the spring sky as a grouping of stars string a strand of jewels around the neck of the waking world. Stellar's brass rods with pinpoint LED's make for a light show you won't soon forget.

Materials: Brass

Dimensions: Ø 6' x 2'- 6" H

# sol

A perfect sphere of energy is the cause of it all. A burning core with shooting rods defines this penultimate star in both size and mythology. The winds may blow and the rains come but it is only the sun that makes us shed our layers and reveal the abundance of the Earth once again.

Materials: Brass  
Dimensions: Ø 4'- 6"
