

DIS-TRAN STEEL

With more than 50 years of experience, DIS-TRAN Steel has the expertise to meet your structural steel fabrication needs. DIS-TRAN Steel maintains AISC certification, which highlights our commitment to quality. We specialize in platform projects, pipe racks and bridges, cable trays and custom structural steel needs.

PCS

PCS is a custom machine shop with a variety of manufacturing capabilities. Our focus on quality is demonstrated with our API-Q1 and ISO 9001:2015 quality management certifications. Whether you require metal forming or multi-axis machining up to 23,000 pounds, we use the latest technology to offer a wide range of services in precision cutting and CNC machining, providing cost-effective solutions to meet each customer's specific needs.

MILLENNIUM GALVANIZING

Millennium Galvanizing is a member of the American Galvanizing Association and boasts the largest kettle in Louisiana. Our 58' x 8' x 10' lead-free kettle uses special high-grade zinc that is supported by the most technologically advanced equipment in our industry. Our services include sandblasting, painting and metalizing.
