The CAS Severn Advantage

We know that working with the federal government is different from other industries. We've worked for more than 15 years with the Department of Justice, 12 years with the Centers for Medicaid and Medicare Services, and 20 years with other agencies.

- Higher ratio of technical personnel than most companies our size, with more than 50 enterprise and world-class technical resources with a wide range of data center skills and 160 technical certifications.
- Centrally located in Laurel, MD means we can be onsite quickly and easily.
- The Innovation Center has a multi-functional lab and live, working environment that can showcase solutions and services built with best-in-breed hardware and software.

Comprehensive program and project management ensures quality from beginning to end.

Practice Areas

Storage and Systems Management and Services

We specialize in every type of data storage, as well as storage efficiency technologies such as thin provisioning, compression, and deduplication. The marketplace is seeing an explosion in storage innovation, and CAS Severn invests in staying abreast of the newest options, including:

- Converged and Hyper-Converged Infrastructure Solutions
- Server SAN Solutions
- On-Prem Backup and Disaster Recovery Storage Solutions
- All-Flash Storage Solutions
- Scale-Out NAS Solutions
- Software-defined and Object Storage
- Cloud and Hybrid Cloud Storage

CAS Severn's storage and systems management experts can work with you to customize a solution that will addresses your organization and industr-specific challenges.

Application Development and System Integration Services

When it comes to application development and systems integration, a one-size-fits-all service approach can leave you stretched thin. A custom approach may be just the right fit.

Are you looking at Open Source software?

CAS Severn can help!
