

IT Staff Augmentation

Comprehensive program and project management ensures quality from beginning to end.

To learn more about CAS Severn and how we can help your organization optimize your IT operations, contact us at 1-800-252-4715.

IT Staff Augmentation with CAS Severn, Inc.

Studies show that outsourcing your IT needs can result in improved financial health and performance for companies in most industries.

Whether you require a new skill set or extra help, have a short- or long-term need, CAS Severn can provide the experts who'll get it done right on an as needed basis. From Network Specialists to Application Developers to Help Desk Support — in depth and breadth of expertise — our IT Staff Augmentation team is unrivaled.

Which lets you breathe a little easier. And not blow your budget.

For most of our customers, staffing up an IT operation is outside their core competencies. Still, they need experienced staff to keep their operations moving. CAS Severn will do the heavy IT lifting. We'll hire and

manage your IT support staff. From systems administration, database design, infrastructure service-oriented architecture (SOA) design and management, to help desk support — you name it, CAS Severn will provide it. It is our core competency.

For two days or two month or two years — from the simple to the complex — our IT Augmentation staff will take care of it. So you don't have to.

Our IT Staff Augmentation expertise is incorporated into the following areas:

- Architecture/Design/Analysis
- Engineering Support Services
- Application Design and Development
- Program/Project Management
- Data Center and Network Operations Services
