

CHLOR CLEAN DETERGENT

- Reduces the risk of infection and cross-contamination
- Once Step Cleaner & Disinfectant
- Excellent Bactericidal, Virucidal, Fungicidal, Sporocidal

Chlor Clean Detergent (IN812) is a chlorinated cleaner specially designed for pressure washers & high temperature cleaning. Excellent for bakeries, restaurants, packing plants, schools, hog confinements, etc. **Chlor Clean Detergent** cleans up greases, oils and carbonaceous soils quick and easy. **Chlor Clean** is safe to use on food preparation surfaces. Rinse thoroughly with cool, clear, soft water after thoroughly cleaning surface. **Chlor Clean** contains an exclusive scale stopper to protect machine systems from scale build-up before it becomes a problem.

Contains: Ethylene Glycol Monobutyl Ether, proprietary surfactants, Chlorine, Sodium Metasilicate, solvents, water softening agents and corrosion/scale inhibitors.

USDA Approved for use under the Federal, meat, poultry, shell egg grading and egg products inspection program under 9CFR416.4 (C) FSIS Directive 5000.1, Revision 2, Amend.1.

Alkota's detergents go further and last longer.
