

ACCELERATE YOUR HEALTHCARE DEPLOYMENT

OVERVIEW

Collaborative Solutions recognizes that healthcare provider organizations face a growing need to migrate legacy ERP systems to a single enterprise cloud-based Workday solution for HR, Finance, and Supply Chain.

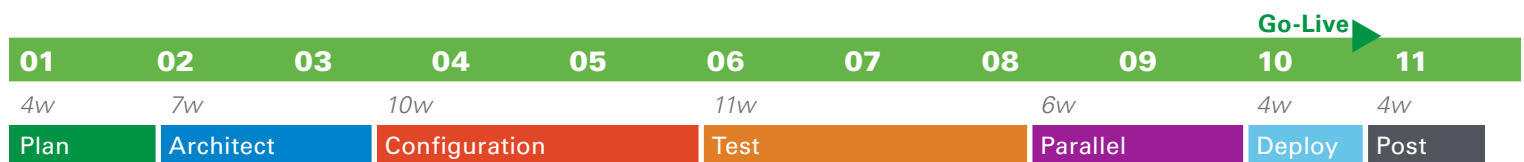

With this in mind, we've developed a healthcare deployment package designed to meet the specific needs of the healthcare industry. This offering delivers expedited time-to-value, in an efficient and cost-effective manner.

Benefits of Package:

- Gain insights and guidance leveraged from Collaborative's 60+ Workday healthcare customers
- Increase time-to-value of your technology investment and accelerate adoption by end users
- Receive flexibility to implement Workday with an onsite/offsite or 100% virtual deployment model

TIMELINE

Your organization can go live with the full-suite of Workday in just over 10 months.

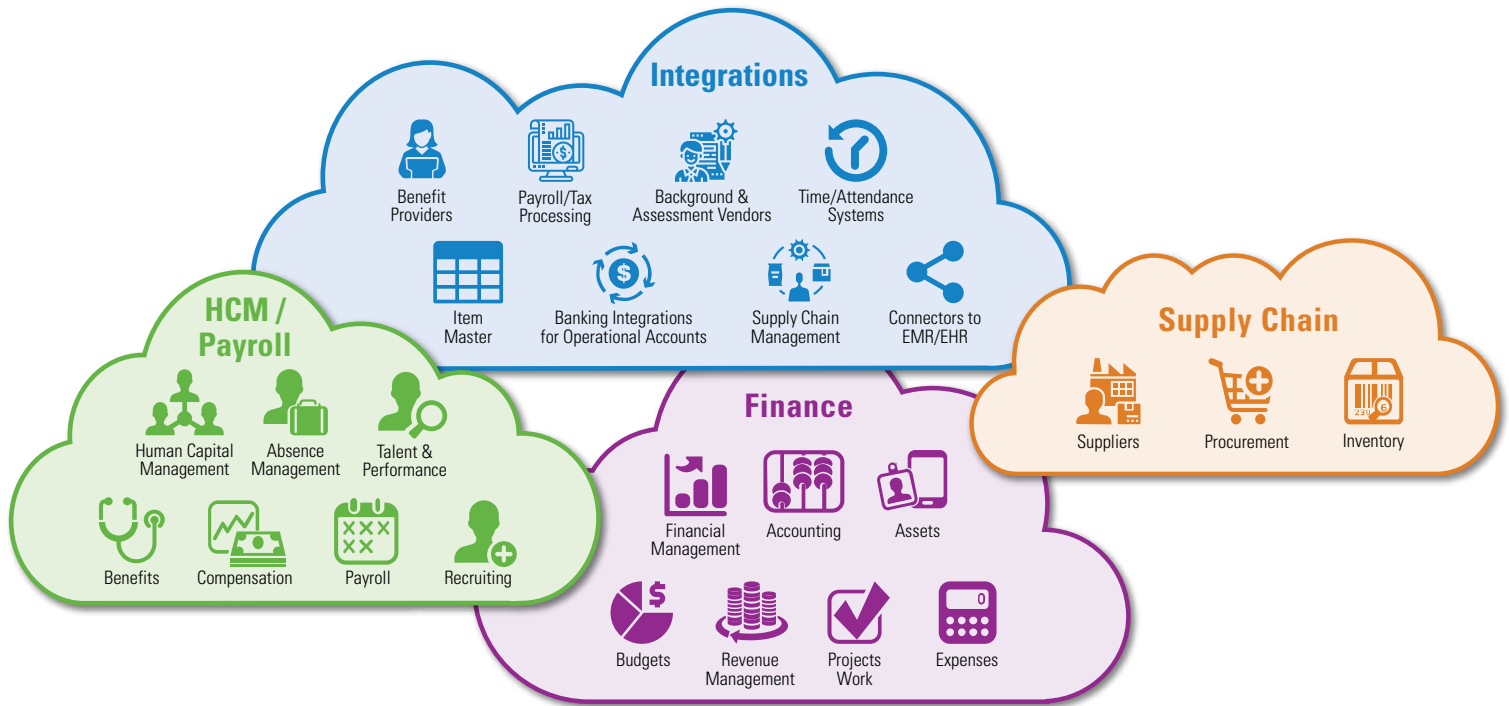

WHO CAN BENEFIT FROM THIS DEPLOYMENT PACKAGE?

Our ability to leverage a repeatable yet tailored deployment within the healthcare industry can be applied to the following types of healthcare provider organizations:

- Integrated Delivery Networks
- Community Hospitals
- Large Physician Groups

WHAT IS INCLUDED?

ADDITIONAL SERVICES

Additional Workday functionality and/or additional consulting services from Collaborative can be added to any deployment. Scope and pricing is determined separately. This includes:

Workday Functionality	Consulting Services
Workday Learning	Testing Support
Prism Analytics	Change Management
Planning	Process Automation (RPA)
Time Tracking	Talent Engagement
Grants & Endowments	Contingent Worker Tracking
