

# COVID-19 Pre-Entry Screening

## Protect Your Workforce

The CDC recommends all workplaces institute some form of employee screening for COVID-19 symptoms. For many businesses, a third-party screening service is the best solution for this. Compliance Consultants, Inc. has trained screeners, most with medical backgrounds, that will come to your place of business, take temperatures and ask a series of symptom screening questions. Anyone exhibiting symptoms is denied entry, thus keeping your workforce healthy and your business running.

## How It Works

- All screeners are trained in COVID-19 awareness and prevention measures.
- CCI works with you to determine the number of screening stations and screeners you'll need.
- Screeners are equipped with infrared, non-contact thermometers.
- Receive daily documentation of all individuals being screened.
- Maintain objectivity. A third-party screening service ensures unbiased results.
- Whether you need screening 2 hours in the morning or all day, a simple hourly rate allows you to budget according to your needs.

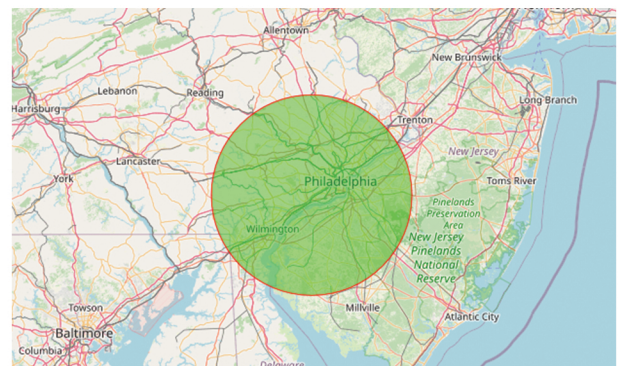

## Industries Served:

- Office buildings
- Schools
- Day Cares
- Retailers
- Industrial Parks
- Co-working Spaces
- Construction sites

## Cost

\$65/hour per Screener  
Minimum of 2 hours

(additional travel fee may be assessed for destinations more than 30 miles outside zip code 19033)
