Mix Method:

Step 1: Wrap a few handfuls of ice cubes in a clean towel or ice crusher bag and, using a mallet, rolling pin, or muddler, tap until all the ice is broken up and crushed (you want a mix of ice sizes from pea sized to snowlike).

Step 2: Combine the lime juice, sugar, all but 1 sprig of mint, and passionfruit in a cocktail shaker and muddle a few times to break up most of the mint and passionfruit seeds. Pour mixture into a tall glass (such as a Tom Collins), add ice to fill 3/4 of the way, stir then top with club soda, more ice (as needed), garnish with mint and serve.
