FREESTANDING

G-CONNECT

G-CONNECT is a design icon with unmatched functionality, ideal for today's ways of working. Extensive power/data capacity and laminated finishes or natural wood veneer in beautiful tones combine to produce a functional, elegant and modern workspace.

G-BENCH

G-BENCH is a dynamic, contemporary collection of collaborative furniture offering multiple functional configurations that increase efficiency by allowing more users per workstation.

G-BENCH enables collaborative work and communication through outstanding technology integration, hidden wire management and aesthetic design, along with a wide range of finishes and versatile accessories that adapt to the culture of your organization. _____

URBAN

URBAN is an innovative collection for collaborative spaces. A wide range of customizable elements and accessories with accents of color reflects your organization's personality.

Built with hidden wiring capabilities, URBAN'S modern, ergonomic design offers dynamic style, creating the ideal environment for collaborative spaces.

ASCEND

ASCEND HEIGHT-ADJUSTABLE BENCHING. We've thought of all possible scenarios. ASCEND BENCHING integrates height adjustability, power, data, privacy and many other features into a single platform. Available in double-sided configurations for maximum space utilization and flexibility.

HEIGHT ADJUSTABILITY FOR EVERYONE. Movement is essential to the human being, and ASCEND allows easy transition between sitting and standing. Affordable and easy to assemble, ASCEND brings height adjustability to everybody in your office.

Quality and durability are hallmarks of the Gebesa brand. Made in North America to ensure high quality and high performance, all Gebesa products are supported by our outstanding customer service and superb warranty.

PANEL-BASED

ELITE

This exclusive, modular collection creates environments of high design and great functionality, optimizing space with multiple configurations that adapt to different levels of interaction and privacy among users.

Creatively and technologically engineered, ELITE has the capacity for complete voice, data and power management. Its unique tile configuration allows you to design stylish, flexible workspaces using modern finishes and cutting-edge materials. _____

OPTIMUS

This modular collection allows for multiple configurations to optimize space and create organized, productive workplaces. Designed using panels in various materials and finishes, OPTIMUS lets you create customizable work environments.

OPTIMUS offers optimum wire-management capability thanks to its beltline raceway that allows access to power and/or voice and data at worksurface level. Various panel finishes follow the latest trends in interior design to create modern, progressive work environments.

SYNERGY

Color may vary from picture

SYNERGY'S modular system is based on upholstered monolithic panels, creating functional spaces with simple acoustic solutions. Easy to assemble and designed for wire-management capabilities, this is a collection inspired by productivity and efficiency.

SYNERGY provides a quick solution to the specific requirements of dynamic workplaces without sacrificing the functionality and image of your organization, along with a wide variety of accessories to customize your workstations.
