VerifEye™ Submetering Solutions
Smart Solutions for Energy Monitoring and Tenant Billing

SMARTer Metering. SMARTer Control. REAL Savings.

The Benefits of Submetering

VerifEye™ delivers a comprehensive line of leading-edge submeters, communication products and software solutions as the key building blocks to help you better manage costs and conserve energy.

Develop your strategic energy management plan using revenue grade real-time energy usage information to measure, monitor and manage operations to improve your bottom line. From tenant billing to energy measurement & verification (M&V) software solutions, VerifEye offers cost effective scalability and integration to provide you with the solution you need today that can be expanded in the future.

For additional energy savings, combine VerifEye with Leviton lighting controls for a complete energy source
