Wireless Jobsite Speaker

iPhone/Android compatible

The Klein Tools AEPJS1 is a powered speaker that provides 5 watts of high-quality sound for smart phones, tablets, computers and other audio devices via a wireless Bluetooth* connection or wired auxiliary input. It answers calls hands-free with the built-in speakerphone and can be magnetically attached to any steel surface, attached to Klein's Lighted Tool Bag (Cat. No. 55431), mounted to a standard 1/4-20 tripod, attached to a lanyard, or simply stood up on any solid, level surface.

- Powerful rear magnet holds speaker securely to metal surfaces
- Twist-lock flange on back mounts to Klein's Lighted Tool Bag, Cat. No. 55431
- 1/4-20 threaded mount on bottom allows attachment to any standard tripod
- Includes 1/8" (3.5 mm) stereo auxiliary cable and micro USB-to-standard USB charging cable
- 10-Hour Battery Life
- 32.8 ft (10 m) Connectivity Range
- Rated IP45 Waterproof / Dustproof
- Drop Protected up to 6.6 ft (2 m)
