22mm Emergency Stops

Industry leading breadth and ratings

As safety becomes more prevalent in both facility and machine design, Eaton continues to develop emergency stop pilot devices with industry leading breadth and ratings. With 25 styles of IP67/69k operators, multiple shrouds and guards, self-monitoring contact blocks, and unique illumination devices, Eaton 22mm emergency stops offer reliable protection while carrying numerous global certification ratings.

Safety-rated

Eaton 22mm emergency stops meet multiple industry safety standards. These durable buttons can be used in functional safety applications up to Category 4, PLe or Sil 3 and meet several product safety standards for emergency stops including: IEC 60947-5, ISO 13850, IEC 60204, and NFPA 79.

Compact Style

Also available in a monolithic design, the C22 emergency stop provides a simple, efficient installation and increased safety while in operation. The all-in-one design of the C22 emergency stop has built-in contacts that eliminate the need for self-monitoring contacts blocks.
