Concept Pro 4MP IP Fixed External Turret Camera

The Concept Pro CVP9315DNIR-IP4M/2.8 and CVP9315DNIR-IP4M-G/2.8 are professional 4-megapixel, external turret cameras with a wide 2.8mm fixed lens and extended adaptable infrared illumination range. With ONVIF Profile S conformance, IP66-rated metal housing, and true day & night ICR, this camera is suitable for a wide variety of installation environments. A full suite of alarm and audio I/O ensures any professional use-case can be satisfied. Additionally, this easy to install camera is plug and play compatible with the full suite of professional Concept Pro network video recorder products.

Concept  Pro

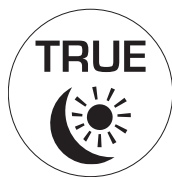

Onvif Compliant

This CCTV camera conforms to the ONVIF Profile S specification that aims to standardize the network interface between IP security products.

Advanced Infrared Technology

This CCTV camera utilizes Concept Pro's Advanced Infrared Technology that adjusts the IR levels depending on the proximity and movement of objects, delivering smooth and even illumination in the most challenging of dark environments.

True Day & Night ICR

This camera utilizes a physical infrared cut filter to provide true color images in daylight and automatically switch the high-powered IR LEDs on at night for clear black and white images.
