### Concept Pro Elite

8 & 16 Channel

Our Elite range has been designed with high-end installations in mind, where extensive features, storage, and durability are a paramount necessity. Offering an advanced feature set including up to 50TB HDD Support, the Elite range offers the very highest quality without compromise.

**"High-end recorders for the highest calibre of installs"**

### KEY FEATURES

*In addition to Concept Pro Professional & Lite*

Max 50TB Internal Storage  
x16 + x2 Alarm In/x8 Relay + x8 OC  
2x CVBS spot out (16CH)  
QHD Display Output  
x16 Audio In/x1 Audio Out  
RAID 1/5 Support  
eSATA External Storage x1  
Loop Through  
RS232 x 1

### BENEFITS

Up to 50TB HDD support for extensive storage and E-sata external storage support

Up to two CVBS spot monitor outputs allow for independently configurable spot sequences compatible with legacy monitors.

RAID 1/5 support adds reliability to storage, ensuring that if a HDD goes down, your footage will be retained.

RS-232 port allowing for POS connection and ideal for retail applications.

### IDEAL APPLICATIONS

Warehouses/Factories | Large Public Spaces | Stadiums | Large Office Blocks

### Concept Pro Professional

4, 8 & 16 Channel

The Professional range is feature-rich, expandable and geared for use in medium-to-large-scale commercial installs. This range offers a greater quality and variety of configuration but retains easy operation, a familiar installation process and the same intuitive Graphical User Interface.

**"Robust recorders with an extensive set of features"**

### KEY FEATURES

*In addition to Concept Pro Lite*

More FPS at Higher Resolutions  
Up to 5MP IP Camera Support  
Up to x16 Alarm In/x1 Alarm Out  
UHD Display Out  
Dual Monitor (Main+Spot)

### BENEFITS

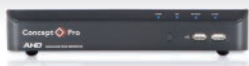

Up to 16 alarm inputs allowing for seamless integration with legacy installs

IP Hybrid support to ensure these machines are compatible with the vast majority of pre-existing installs and to ensure that AHD systems can be upgraded to IP using the same recorder, step by step.

4K display output to provide high quality footage with crisp detail

### IDEAL APPLICATIONS

Supermarkets | Offices | Schools | Car Parks | Retail Outlets

### Concept Pro Lite

4, 8 & 16 Channel

Concept Pro Lite has all the benefits of Concept Pro but is lighter on features to deliver a high value proposition. The Concept Pro Lite recorder has the same UI, same design, uses the same app and iPIMS as the rest of the Concept Pro recorder range. The Lite range is both capable and affordable.

**"Competitive low-cost recording with no compromise on quality"**

### KEY FEATURES

Up to 20Tb Internal Storage  
2/3/4/5MP Analogue Camera Support  
IP Hybrid Support (Max. 16CH@2MP)  
x2 Alarm In/x1 Alarm Out  
x4 Audio In/x1 Audio Out  
Fanless (4 Channel)

### BENEFITS

Featuring a fanless 4-channel design for minimal noise disruption, ideal in domestic locations.

RS-485 connectivity allows for multi-receiver support with a maximum data transmission speed of 100Kbps and distance of up to 1200 metres.

Enhanced Security Controls.

Up to 20TB HDD support for configuration with any installation

### IDEAL APPLICATIONS

Domestic Properties | One Stop Shops | Post Offices | Restaurants and Pubs
