

Concept Pro Bullet Cameras

Videcon has expanded the range of Bullet Cameras to include more resolution options.

Available in both IP and AHD, multi-signal (AHD, CVBS, TVI, CVI) formats, Videcon's new, Concept Pro, Bullet Cameras bring a new range of resolutions to the Bullet range. The range is split into Lite and Professional Range and available in Small, Medium and Large

housings with fixed lens, varifocal and motorized zoom lens options. The enhanced line up ensures there is a Concept Pro Bullet Camera to suit a huge variety of installation requirements and budgets.

Small Bullet Cameras

The Concept Pro Small Bullet Cameras are predominantly fixed lens and provide our most cost-effective Bullet Cameras. Available with AHD options from 2MP to 5MP and Ip ranges from 2MP to 8MP. The 2MP options provide excellent value with a clear and crisp image with the higher resolution options providing greater detail at a distance.

Medium Bullet Cameras

The Concept Pro Medium Bullet Cameras are predominantly varifocal lens and provide additional features such as audio and alarms to suite a wider range of installation requirements. Following the structure found throughout the Concept Pro camera range, they are available with AHD options from 2MP to 5MP and IP ranges from 2MP to 8MP.

Large Bullet Cameras

The Concept Pro Large Bullet Cameras are predominantly motorized lens, giving the added advantage of operating the lens remotely from the recorder. This range offers the largest feature set with IR ranges up to 80m and lens options up to 5-50mm offering excellent zoom capabilities.

Available with AHD options from 2MP to 5MP and IP ranges from 2MP to 8MP the Large Bullet Cameras concludes the most complete offering of Concept Pro Bullet Cameras yet.
