

Concept Pro

Public View Monitors

The Concept Pro public viewing monitors combines a 21.5" or 32" 1080p LED screen with dual built-in HD cameras – an AHD camera for live viewing and IP camera to connect to an NVR - to serve as a visual deterrent in retail environments and can be mounted in a number of ways.

Users can either display live footage from the AHD camera, the complete CCTV system or stream other desired media through USB whilst the cameras remain active. Available in black and white casing.

Key Features

- 22" LED Backlight Screen
- Dual Camera (1080P AHD&IP Camera)
- Advertisement function
- Motion Sensor for Auto switch
- Alternate display between different channel (On/Off)
- Built SD Card Reader

Integrated Dual Cameras

The Concept Pro Public View monitors have two built in HD cameras – an AHD camera that displays live footage on-screen and an IP camera footage back to an IP NVR, allowing the monitor to be used as one of the cameras used in a CCTV system.

SD Card Slot

The SD Card slot can be used to stream media on screen such as a moving advertisement whilst capturing footage on an NVR.
