

Hubbell Premise Wiring

## iSTATION HDBaseT 2.0 In-Wall HDMI Extender

Hubbell's High-Definition 110 Video Extender with HDBaseT transmits up to Ultra HD 4K and HDR video signals over one solid, unshielded, twisted-pair (UTP) cable, allowing video display devices to be located a maximum of 328 feet away from a digital source. Additionally it supports repeating of RS232, IR, and USB control signals. Ideal for interactive white boards, projectors, HDTVs, flat screens, monitors and other video display devices. The Hubbell HDBaseT Extender feature multiple LEDs to indicate that power and signal are working properly.

- Extend HDMI, USB, RS232, and IR up to 328ft over UTP
- 110 Termination Reduces Installation Time
- High Definition Digital 4K @ 60Hz Video and Audio with Control
- Utilize Same Cable for Current and Future Applications

### Features:

- Locating a display device up to 328 feet (100m) away is as simple as pulling one UTP cable to a drop
- Terminate with one Category 6A, 6 or 5e UTP or shielded, plenum or non-plenum cable
- Supplied as a kit with both Source and Display modules

### Specifications:

- Connectors: HDMI 19-pin, Type A, female connector, gold plated 2μ"
- IDC Contact: phosphor bronze with tin plating over nickel under plating
- Material: steel housing and mounting strap with thermoplastic face
