Analogue High Definition 1080p

It's never been easier to offer 1080p video

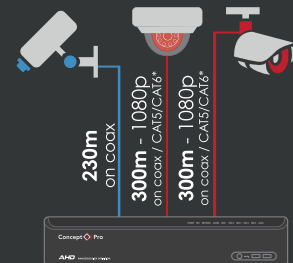

WHAT IS AHD?

AHD is an analogue video standard used in CCTV that can transmit 1080p high definition video using a traditional coax cable. It is the nearest HD equivalent to traditional analogue systems, meaning there is almost no additional knowledge needed for installation.

AHD, HD-TVI & ANALOGUE COMPATIBLE

A Concept Pro AHD system is compatible with AHD, HD-TVI and traditional analogue cameras. Replacing older CCTV systems with an AHD recorder will allow installers to upgrade cameras incrementally, reducing install times without having to replace existing infrastructures.

Analogue Analogue HD HD-TVI

*Approximate distances. Actual transmission range will vary depending on type and quality of cable and baluns
