

Mini PC

The Mini PC is an ultra compact PC system, for use with the Concept Pro access control. The PC offers rapid deployment as it comes pre-registered and loaded with all prerequisite software.

With the modular design of the Mini PC, memory and storage can be easily upgraded.

The Mini PC incorporates 4x USB ports, for which an external memory device can be used to ensure a back-up of the database is preserved.

There is no physical dongle with SATEON; only a software key. This makes for easy work when updating or extending a system as the license files are very small and can be distributed by email.

Key Features

- Pre-loaded and configured with Windows 8.1 Professional
- Intel Core i3 Processor
- VESA Mount Bracket included
- 120GB, 6GB/s SSD
- 8GB DDR Memory

Part Number	SAT-ADV-MINIPC
Dimensions	116.6mm x 112mm x 34.5mm
Operating Temperature	0°C to 50°C
Power Requirements	DC Power 12 to 19 V, 65 W Power Cord Options (Types B, E, and G)
Peripheral Connectivity	Integrated Intel 10/100/1000 Network Connection Four Super Hi-Speed USB 3.0 ports (two back panel ports and two front ports) Two additional Hi-Speed USB 2.0 ports via internal header
Processor	Intel® Core™ i3 4010U Processor (1.7 Ghz Dual-Core processor with 3 MB smart cache)
Graphics	Intel® HD Graphics 4400 One Mini DisplayPort 1.2 supporting ultra-high definition 4K displays and multiple monitor functionality One Mini HDMI 1.4a port
System Memory	Dual-channel DDR3L with two connectors for 1600/1333 MHz memory support (16 GB max)
Power Supply	SATEON PRO Mini PCs are powered with a 230Vac 65W adaptor which is included
