ACCESS CONTROL
POWERED BY Grosvenor TECHNOLOGY

Readers

SAT-RDR-MF / SAT-RDR-MF-KP

MIFARE readers utilize proven MIFARE (13.56MHz) technology to offer secure access control solutions for a range of applications. The reader is available in keypad and non-keypad variants.

Both readers are easy to install, thanks to their vertical and horizontal mounting holes and metal back plate, and at 86mm are designed to mount directly on the electrical back box.

Key Features

- Consistent read range

- Easy to install mounting plate

- Wiegand 34-bit output connects to industry standard hardware

- Rugged poly carbonate design for indoor/outdoor applications

- Weather resistant

- Dust resistant
