Hospitals & Clinics
Nursing Homes
(*and others*)

datamax

goVertical.® healthcare

Healthcare Services

Datamax understands the volatile cybersecurity landscape Healthcare faces today. We help providers overcome security and compliance challenges, lower costs, automate processes, and improve communications between doctors, hospitals and patients. We provide the freedom to focus valuable budgets on delivering real health care—not just administering it. *Count on Datamax to maximize the technology that matters!*

Datamax can help you:

- ensure the safety of patient of health information with best security practices,

- simplify admissions and discharge document workflows to improve staff productivity and reduce patient wait times—resulting in better HCAHP survey scores,

- streamline your EMR experience through seamless HL7 scanning integration—reducing the steps required to scan and index documents to a patient's chart,

- track all print, scan and fax activities on MFPs and quickly mitigate any unauthorized access to sensitive patient healthcare information, *and*

- ensure the wellbeing of sensitive patient health information by meeting HIPAA compliance standards and mapping your security and compliance journey long term.

Through relevant technology advisory and total solution deployment, we help healthcare providers *"go vertical"* by maximizing their business processes, communications, and bottom line.

Advantages You'll Realize.

Enterprise Content Management
Combine enterprise control with departmental flexibility to centrally and securely manage your content—providing a critical complement to HIS, EMR and other clinical and back-office applications.

Privacy and Security Management
Deploy privacy and security solutions and services developed specifically to comply with the regulatory requirements established by HIPAA/HITECH.

HIPAA Compliance Risk Assessment
Evaluate the vulnerability of your organization, beginning with a HIPAA Security Risk Analysis. Consult with a Datamax HIPAA Certified Professional (CHP) to garner the tools and procedures to ensure ongoing HIPAA Compliance.

Workflow Management
Optimize productivity and reduce medical labor costs with customized and integrated workflows that combine multiple tasks into single processes.

Cost Reduction and Management
Eliminate expensive pre-printed medical forms, minimize the need for multiple fax lines, and control print costs through enforceable print management policies.

Services We Offer.

Technology Consulting
Align important healthcare-related goals with technology through **Datamax Xpert**™ consulting. We can help you assess and improve how your current document and information technologies are supporting your core business requirements.
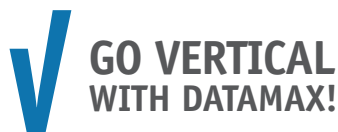

Network Management
Leverage comprehensive network services featuring **TechCare**® Managed IT Services, Cloud Services, Information Security Services, and **TechCare**® **University** User Training for IT specific initiatives—all supported by 24/7 **TechView**® remote help desk support.

Print Management
Optimize your print output through best-in-class print technology and the industry's most responsive approach to managed print services—**PrintCare**™. All supported 24/7 by **PrintView**™—remote access for printing and connectivity.
