

Strata Collection

Conestoga's Strata TSS collection features 26 colors in a variety of textures ranging from deep linear patterns to embossed grains that align perfectly with cathedrals and other characteristics within the grain. These highly durable thermally structured surfaces (TSS) provide lifelike depth in both look and feel - the most realistic textured products in the industry.

*Textured cabinet doors
& drawer fronts in sleek
contemporary designs*

- Available in Slab, Three-Piece and Five-Piece construction, door and drawer front designs can be mixed to achieve a variety of looks and price points.
- Significant cost savings compared to finished wood components.
- Shorter lead-times and no finishing allow you to ship complete kitchens sooner, improving your output and cash flow.
- Highly durable TSS materials are resistant to scratches, dents and fingerprints.
- TSS products offer a high level of stability that withstand warping and bowing, even in high humidity or arid environments.
- Made with sustainable materials including wood chips, fiber and recycled wood makes the collection an environmentally friendly choice.

French Roast (LK10)
Texture: Matrix/Matrix

Strata Slab
(26 colors available)

Strata Three-Piece
(26 colors available)

Strata Five-Piece
(19 colors available)

What are Thermally Structured Surfaces?

A highly durable material featuring a wide variety of textured surfaces that are thermally fused and heat stamped onto a CARB compliant core.

Slab Horizontal Option

Five-Piece Horizontal Panel Option

Ash Brown (LM98)
Texture: Matrix/Matrix

Aspen Oak (LM67)
Texture: Scultura/Matrix

Barn Oak (LN27)
Texture: Matrix/Matrix

Bianco (BO11)
Texture: Scultura/Matrix

Burned (SO12)*
Texture: Yosemite/Yosemite

Carbone (LM08)
Texture: Scultura/Matrix

City Oak (LM69)
Texture: Scultura/Matrix

Concrete (FB11)
Texture: Ares/Ares

Cypress Point (SO13)*
Texture: Yosemite/Yosemite

Dark Concrete (UA49)
Texture: Ares/Ares

Engadina (SO61)*
Texture: Engadina/Maloja

Non-Sequenced Grain

- This is our standard method of production.
- Each door and drawer front will have its own random grain pattern.
- Vertical and Horizontal grain orientation is available with no upcharge.

Sequential Grain Match (Slab design only – upcharge applies)

- The Sequential Grain Matching option is available on TSS Slab doors and drawer fronts.
- Vertical and Horizontal grain orientation is available.
- Sequence matching will flow through all associated parts within individual cabinets. Graining will not be sequenced from cabinet to cabinet.
- The maximum cabinet size for the Sequence Grain Match option is 79" x 96" vertical grain, or 96" x 79" horizontal grain.
- Sequence Grain Matching templates are available to quickly and easily order sequenced matched products. These templates identify the position and sequence of the doors and drawer fronts within each cabinet. Contact your Sales or Customer Service Representative.

Complementary Products

Stainless steel edgeband available with all colors.

Rolls of matching edgeband in all TSS colors as well as stainless steel.

TSS veneers available in all colors (texture differs from doors).

Hand pull in natural aluminum and polished chrome.
