BlueVoyant®

The number of security breaches increases every year. In fact, 30% of companies are expected to be breached in the next 2 years.

When a breach occurs, reducing response time is the most critical element to reducing the impact on your business and the two most important factors in reducing time are:

- **Working with the best and most experienced team available**

- **Having that team teed up and ready to go immediately**

The BlueVoyant IR Team is Second to None

With a BlueVoyant IR retainer, you have assurance that our battle-tested team is ready to go to work for you at a moment's notice.

With the BlueVoyant retainer you get:

Pre-negotiated terms and conditions to reduce response time to an incident

Pre-arranged, rapid response SLAs to minimize breach impact

A retainer agreement tailored to your specific needs

The ability to re-purpose unused hours on proactive services

ADVANTAGES OF THE BLUEVOYANT IR RETAINER INCLUDE:

EXPERIENCE
BlueVoyant's IR Team has deep digital forensic and incident response expertise arising out of decades of work on complex data breaches involving the most sophisticated criminal, nation state and hacktivist actors.

DEEP EXPERTISE
Our team has deep expertise in:
- Ransomware
- Business Email Compromise
- Insider Threat
- Cryptocurrency Theft Compromise
- Intellectual Property Theft
- Full Network Breach
