

STRATEGIC SOURCING

Turn your supply chain data into action with a single platform for spend analysis, contract management, sourcing and supplier visibility. Built for the foodservice industry, ArrowStream connects you to our database of over 6,000 foodservice suppliers while simplifying the process of running sourcing events.

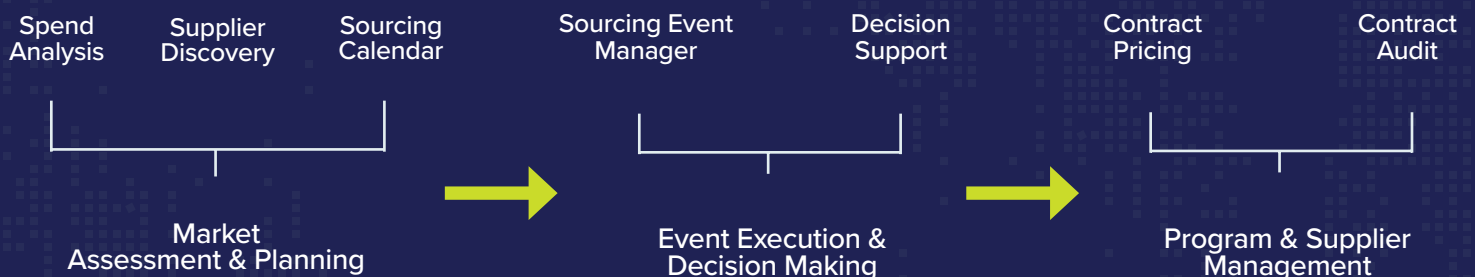

HOW YOU BENEFIT

- Establish a consistent & repeatable process for your sourcing organization
- Analyze your spend & contract data to find new savings opportunities
- Find qualified suppliers that work with foodservice clients
- Run multi-round sourcing events & secure the right product at the best price
- Connect awarded supplier details directly to your ArrowStream contract system

ARROWSTREAM'S END-TO-END SOURCING WORKFLOW

ARROWSTREAM STRATEGIC SOURCING CREATES A DATA-DRIVEN & STRUCTURED PROCESS FOR MANAGING SOURCING OPERATIONS IN THE CHAIN RESTAURANT INDUSTRY

Strategic Sourcing

CAPABILITIES

Spend & Contract Analytics

Harness the power of ArrowStream's spend analytics and identify opportunities to consolidate suppliers, put more spend under contract or get ahead of upcoming contract renewals. Quickly and easily tie these insights directly to sourcing events.

Supplier Discovery

Make new connections by accessing the ArrowStream network of 6,000 suppliers. View detailed supplier profiles to find partners that offer the products, services or the distribution footprint your organization needs. Find potential suppliers of interest and easily add them to sourcing events.

Scenario Analysis Tools

View bid responses through an interactive decision support tool that allows you to configure multiple scenarios such as "award to lowest cost bid" or "select incumbent." Adjust settings within the tool to view total savings. Define the optimal scenario and award the winning suppliers.

Sourcing Event Manager

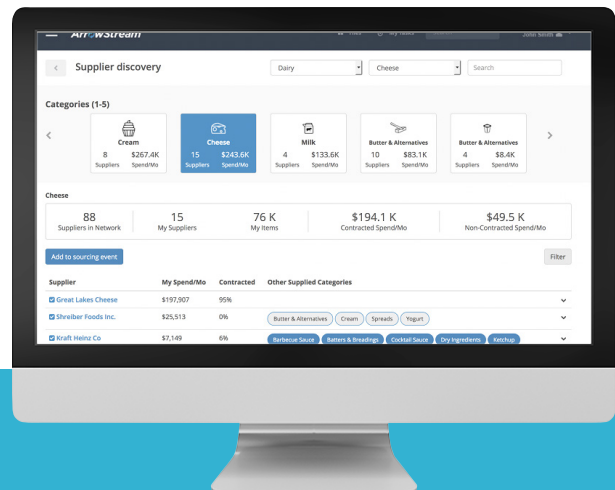

Create a structured and repeatable sourcing process with your suppliers through an easy-to-use bid capture workflow tool. Define the product information you need to collect, select target suppliers and ultimately receive completed bids. Run single or multi-round events.

Sourcing Calendar

Assess your opportunities and then establish a monthly plan for your team by scheduling future sourcing events. Receive proactive reminders for upcoming events and convert them into active sourcing events.

Contract Price Integration

Take advantage of our unified platform by connecting supplier and pricing details directly to ArrowStream's contract management system. Updated pricing details enable ArrowStream's price audit capabilities and ensure correct invoicing.
