

Harness the potential of schedules analysis

Identify commercial opportunities for new routes & services

Monitor competitor network & activity including relative market share

Identify underlying trends & new industry phenomena

Modelling traffic flow, including future demand

Resource planning, including modelling likely passenger flows at airports

## About the reports

### Capacity Report

**Data across different dimensions** – airline, alliance, departure/arrival airports, city, country, region, DOW, departure/arrival times, equipment type – and frequency & capacity (date, week, month, season or year).

### Changes Report

**Compare schedules for two time periods** and view new routes, discontinued routes, and/or differences in capacity, equipment and scheduled departure/arrival times.

### Top X Report

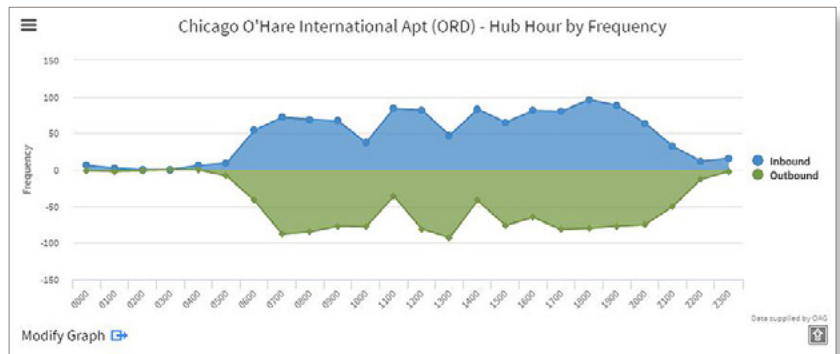

View **top carriers, top departure/arrival airports or top aircraft types** based on various metrics (ASKs, ASMs, Seats, Frequency).

### Power Table

Create a **fully-customised report** of schedule data.

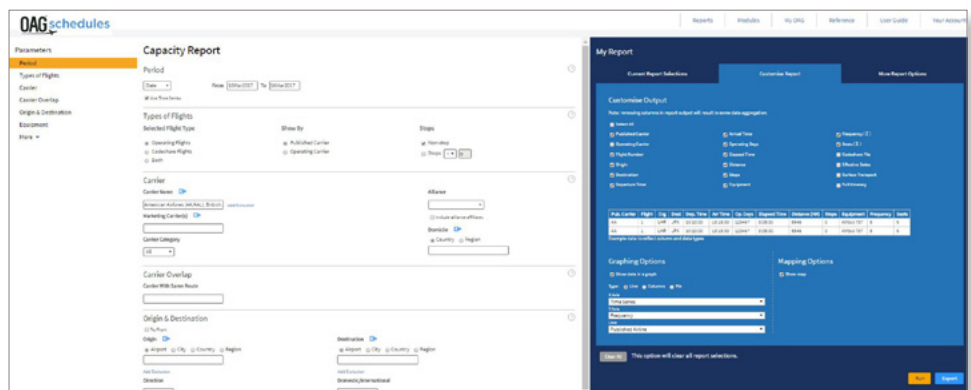

### Bank Structure Report

**Data at a hub airport** and 24-hour flow of flights for a given time period.

## Report features:

- **Group airlines, airports, aircraft types, cities, countries & regions.**
- **All reports** to .csv, .pdf, .xls and .xlsx formats.
- **Configured reports** and schedule them to run automatically.
- Results on an **integrated map**.
- **OAG reference tables** for airports, airlines, aircraft codes, alliances, country/regions & MCT's.
- Historical schedule information from 1996.

# New-look Schedules Analyser

## User-friendly

Fresh look and feel with a simple screen and improved interface so you can:

- Easily view all possible input parameters
- Run reports without having to see the information you do not need
- Check criteria choices as you work with report selections automatically appearing on screen

## Custom reports and graphs

- Easily select the report columns you need with configurable columns on all reports.
- New graph options making analyser data simpler. Ready-made visuals at your fingertips!

## Who uses schedules analyser?

- Airlines: Network Planning, Scheduling, Marketing
- Aircraft Manufacturers & MROs
- Airports: Marketing, Route Development, Retail Specialists, Ground Handling & Catering
- Destination Marketing Organisations & Tourism Boards
- Financial & Investment Companies
- Government Agencies (e.g. Immigration & Border Control)
- Strategic & Aviation Consultants
- Educational Institutions
- Media & Outdoor Advertising Companies

“The programme’s quick and easy-to-use functions have assisted us in our day-to-day tasks. OAG analyser provides additional features such as historical data and quick data export capability. It definitely meets the needs of the most demanding analyst who requires powerful data which is accurate, fast, reliable and user-friendly.”

The team at Public, International, Industry and Environment Affairs, Emirates Airline
