# Hiring automation software for the modern workforce

Fountain is the all-in-one hiring software for the new service economy. Leading companies like Lime, Safeway and Uber Eats trust Fountain to source, screen and onboard millions of applicants each month.

## Automated

We automate time-consuming tasks like scheduling, follow-ups and background checks. Engage with all 100% of your applicants.

## Mobile First

Send personal SMS messages with key reminders that cut the hiring time from weeks to one day. Candidates moves quickly from sourcing to hired.

## Reliable

We are built for high-volume sourcing, scheduling and documentation so we scale with you. Get high-level or detailed metrics on your funnel performance and conversions.

## The Rise of the New Service Economy.

Applicants now demand a personalized and flexible experience with their potential employers - whether it be through jobs in the gig or traditional service economy. We call the convergence of these industries and workforces The New Service Economy. Employers are competing for the same talent pool making hiring much more difficult than ever. Businesses are struggling to keep up and it is affecting the bottom line.

## Hiring software for today's workforce.

Fountain's software was created to resolve this specific challenge. All the manual tasks of scheduling, messaging and filling out forms have been automated and integrated into one, seamless place. This means candidates can easily apply and quickly go through the hiring process to start earning right away. For companies, they can offer a personalized application experience that wins over candidates and also allows recruiters to process them quickly and effortlessly. It's a win-win for all participants in our new global workforce.
