

Incident Reporting and *Investigation Course*

Course Duration: 4 Hours

Workplace injuries resulting from incidents should always be investigated to ensure the causal factors are addressed so that incident can be prevented from reoccurring. Incident investigation is therefore vital.

Why we developed this program?

Work Safety Hub has developed this program to ensure organisations learn from unfortunate events by having appropriately skilled individuals available to accurately discern root causes of events and recommend remediation strategies.

Who should attend?

Anyone involved in incident investigations, small to medium business owners, managers, supervisors, HR practitioners, project managers, engineers and health and safety representatives in the workplace should attend this training.

What will be covered?

This unit describes the performance outcomes, skills and knowledge required to participate in the planning, conduct and reporting of investigations of incidents which have resulted in, or have a potential to result in, injury or damage.

***Comprehensive participant notes and up to date supplementary information will be provided.
This course can also be delivered onsite at your premises. For more information call Work
Safety Hub on 1300 610 059 or register online.***
