

Clinician Registry Measures (MIPS CQMs)

Solution Overview

ENCOR makes fulfilling your MIPS requirements easier with pre-populated patient information and daily updated data for timely visibility into your Registry measure performance. Nearly all (92%) of our clients scored above 70 points in MIPS, earning them the exceptional performance bonus.

"ENCOR gave us the visibility we needed to identify quality performance issues. This allowed us to quickly intervene and make the necessary changes to improve our MIPS score. We worked closely with our Medisolv consultant who provided ongoing guidance which helped us to achieve a final MIPS score of 97.6, qualifying us for the Exceptional Performance Bonus."

Amanda Schwerdtfeger, Clinical Informatics Advisor
Pella Regional Health Center

KEY FEATURES

Automation

- Pre-populated data from your EHR is automatically loaded into each case.
- Data is updated daily so abstractors don't have to wait to begin abstraction.
- Cases are easily sorted by status, so abstractors can see which cases are complete or incomplete.

Expert Assistance

- Data extraction and normalization from multiple EHRs, if necessary.
- Measure improvement support.

Enhanced Visibility

- Drill down to the individual clinician, provider and practice-level details.
- Managers can see the results of all their clinicians in one central location.
- Users can drill down to see patient-level detail.

Submit

- Full submission services to CMS.
- Assistance in resolving rejections.
- Submission data snapshots for future audits.
- Post submission audit assistance.

APMs (ACOs, CPC+, AAPMs)

Medisolv also supports practices that are part of a risk-based payment model. We provide visibility into performance on a daily basis to help practices improve their performance before submission to their APM/ACO or to allow ACOs to gather their practices' data daily.

CMS WEB INTERFACE

Our uniquely designed software assists with monitoring and reporting of all Web Interface measures. Our software leverages EHR data to pre-populate worksheets, saving your team time and effort.

92%

The percent of Medisolv clients who scored over 70 points in MIPS, which qualified them for the exceptional performance bonus.

Zero

No Medisolv hospitals or providers have received a CMS penalty for failure to successfully report in any year.

15+

The average number of years Medisolv clinical experts have worked in a hospital setting.

95%

Medisolv's client retention rate.

#1

Ranked #1 vendor for Quality Management in the 2019 Best in KLAS report.
