◀ HOSPITALS WITH MODIFIED REQUIREMENTS ▶

There are many different circumstances that would qualify a hospital to have either modified requirements or to be excluded from the IQR program altogether. We've included a link here to the 2019 IPPS Final Rule starting with the section on excluded hospitals. However, the best way to understand your requirements is to speak with a Medisolv representative who can walk you through your hospital's specific needs. <https://s3.amazonaws.com/public-inspection.federalregister.gov/2018-16766.pdf>
