

MIPS

My providers will be ready to meet their MIPS reporting requirements.

CMS has linked Medicare payments to the quality performance of your providers. It is essential that your providers have a way of easily reporting for each MIPS category from one location.

Medisolv has a MIPS solution for you.

medisolv™

MIPS Package

Quality Payment Program (MIPS/AAPM)

With Medisolv's ENCOR for Eligible Clinician software, clinicians can easily meet their Quality Payment Program requirements with options for MIPS reporting in the Quality, Advancing Care Information and Improvement Activity categories.

Complete Your MIPS Requirements

Quality Category:

- All eQMs are available.
- All Registry measures are available.

Improvement Activities Category:

- All Improvement Activity measures are available.

Advancing Care Information Category:

- All Advancing Care Information measures are available.

Other Reporting Options

- **CMS Web Interface:** Uniquely designed software assists with monitoring and automated reporting of all 15 CMS Web Interface measures leveraging EHR data.
- **ACO:** Software includes custom formats for ACO reporting.
- **CPC Plus:** Practice location site-based reporting for CPC Plus also included.

Enhanced Visibility

- MIPS score calculator refreshes daily to show your approximate final MIPS score.
- Data from your EHR is updated daily.
- Drill down to the individual clinician, provider and practice-level details.
- Managers can see the results of all of their clinicians in one central location.
- Users can drill down to see patient-level detail.

Expert Assistance

- Data extraction and normalization from multiple EHRs, if necessary.
- eCQM performance and data validation.
- Data capture workflow optimization.
- On-demand and live regulatory education and guidance. Timely annual updates of eCQM specifications.

Submission to CMS

- Reporting at both the individual and group practice level is fully supported.
- Medisolv will submit your clinician's reporting files to CMS on your behalf.
- Assistance in resolving rejections.
- ENCOR saves submission data snapshots for use in case of future audits.
- Post submission audit assistance.

2018 CMS Qualified Registry | 2015 & 2014 Edition ONC Certified

Why Medisolv

- Medisolv's ENCOR software has earned the exclusive endorsement of the American Hospital Association.
- In the 2017 KLAS Quality, Patient Safety and Risk Management report, healthcare executives rated Medisolv number one in helping them to adapt to regulatory changes.
- Medisolv has successfully submitted quality data to CMS for providers since 2014.
- No Medisolv hospitals to date have received a CMS penalty for failure to successfully report in any year.

Unlike other vendors, Medisolv's software doesn't end with implementation. Our clinical consultants have spent, on average, 15+ years in the hospital setting. They work with you to test and validate your data to produce accurate results. When it comes time for submission to regulatory programs, your consultant submits the data on your behalf. No extra work needed!
