Studying at an Australian university or private college is a unique experience that will change your life forever. Aside from the obvious benefits of studying DownUnder (sun, sea, and social life), Australia has an innovative and globally respected education system, with a strong focus on employability after graduation.

Each year, over 300,000 students travel to Australia to study across 160 institutions offering higher education. With thousands of courses on offer, and

[MAIN INDEX](#)

[GO STUDY PARTNERS](#)

so many choices of location and institution, it can be hard to know where to start,

GO STUDY Australia are the experts in Australian education. Our dedicated team can help you select the best course to meet your goals - whether it be a short term experience, or long term vision to stay in Australia.

CONTACT GO STUDY NOW to begin your higher education journey.

WHAT IS HIGHER EDUCATION?

Higher Education is a type of qualification that you would traditionally associate with universities, but it may also be offered by approved private providers. It often has a strong theoretical component and sits above certificates and diploma level courses in the AQF (Australian Qualifications Framework). The qualifications are offered in the form of Bachelors, Masters, PhD/Doctoral degrees. Qualifications can be delivered through universities, private institutions or public institutions such as TAFE (which is like a large polytechnic with many campuses across Australia). The courses range in duration between 1-3 years. Many offer accelerated programs or short-term study abroad which are great for summer study programs.

[MAIN INDEX](#)

[GO STUDY PARTNERS](#)

HOW IS IT DIFFERENT FROM VOCATIONAL STUDIES?

Vocational studies have a lower ranking to Higher Education by the standards of the Australian Qualifications Framework - but that doesn't mean they are worse, it just means the outcomes are different. Vocational courses focus more practical skills whereas Higher Education courses offer both academic and practical training with a deeper level of theoretical knowledge learned. Historically, Higher Education is considered and respected by employers above Vocational Education office jobs. Vocational courses are needed for skill based work

[MAIN INDEX](#)

[GO STUDY PARTNERS](#)

(think mechanic, electrician, fitness which require specialised skills). Many people assume Higher Education graduates are automatically more employable than Vocational Education students - however this changes depending on what industry or job role you are looking to enter. Either way, completing a Higher Education Degree shows you have dedication, commitment and are focused to meet the many demands of studying these courses. Studying a Higher Education degree in Australia is a life-changing adventure and Go Study can help you to turn your Australian dream into reality!

Australian universities are amongst the best in the world. The quality of their courses and their hi-tech infrastructure make Australian institutions progressive and influential. Australia offers a wide range of study options for international students, There are 48 universities and more than

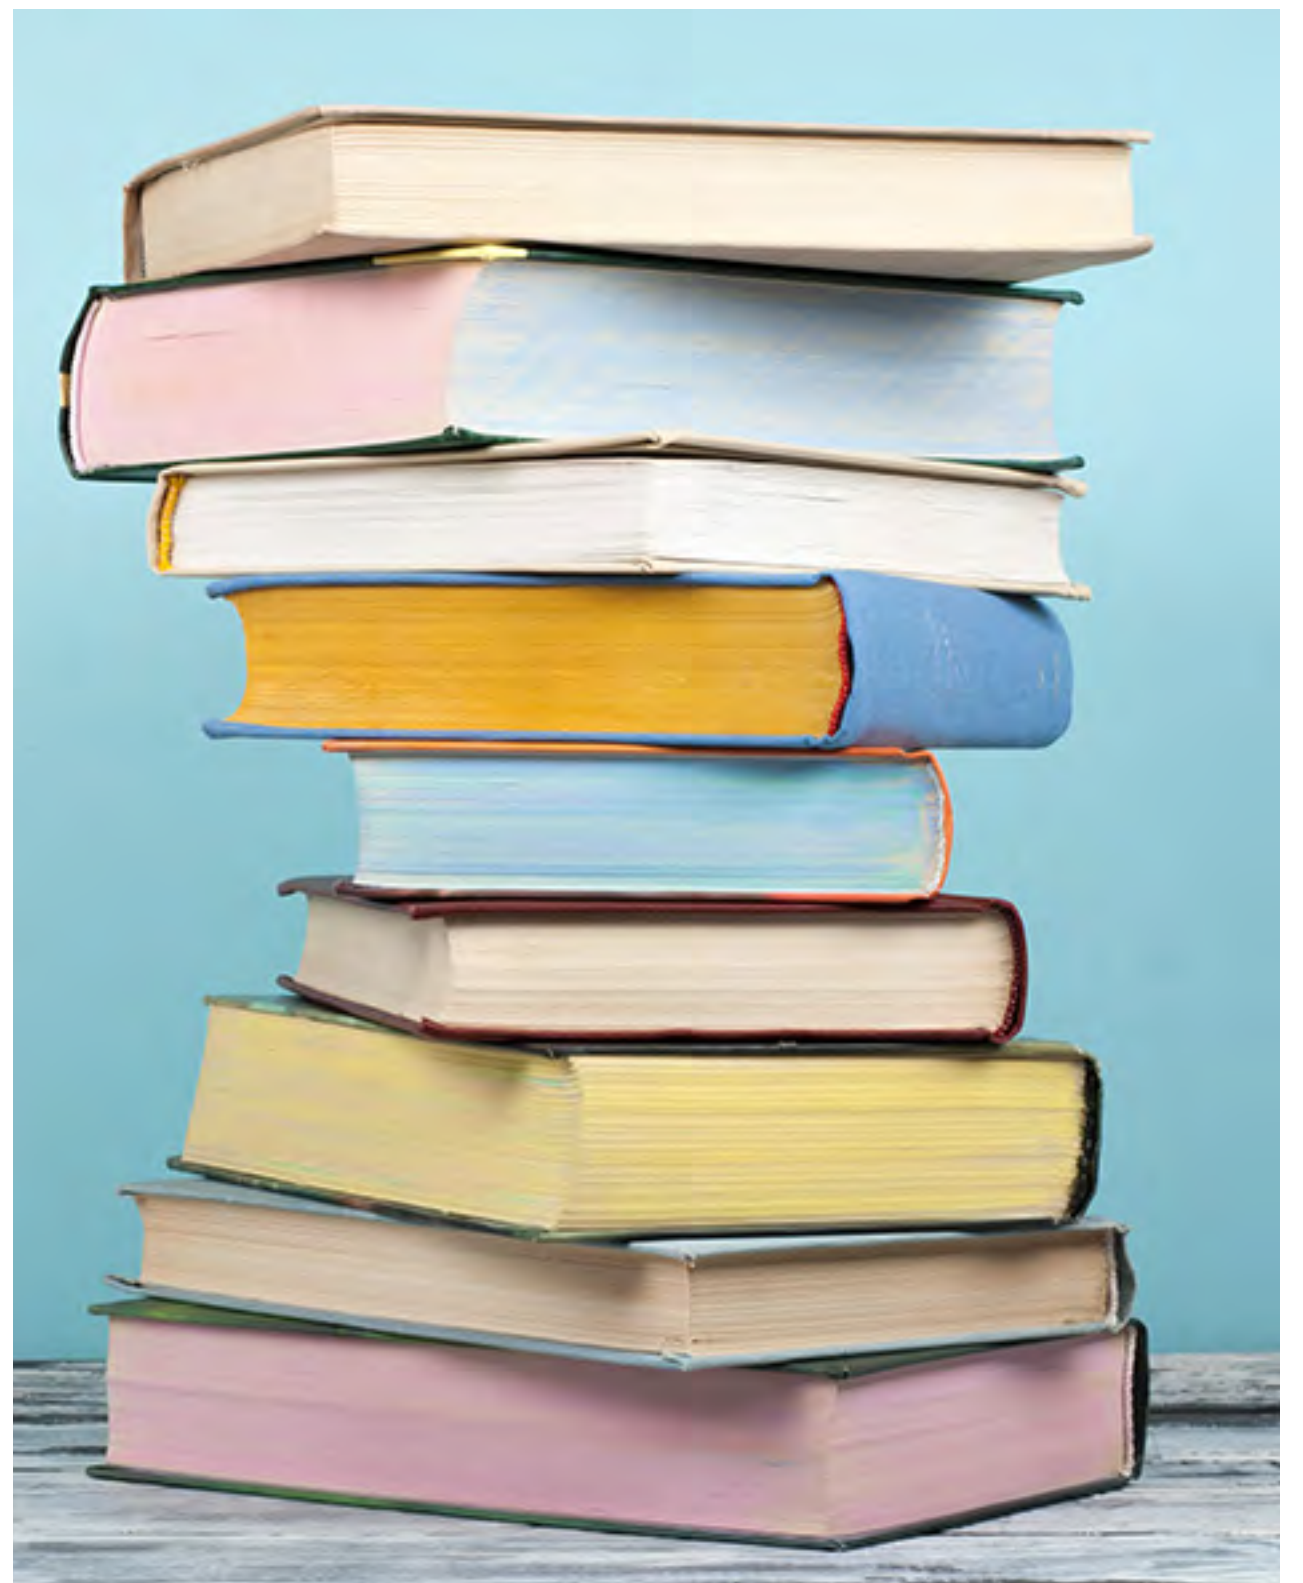

[MAIN INDEX](#)

[GO STUDY PARTNERS](#)

120 institutions offering more than 5000 higher education courses to choose from.

If you feel overwhelmed by the choices and how to select your best course and institution, GoStudy's trained experts course counsellors we are here to help! We can help you find any course and any institution in Australia.

WHY STUDY IN AUSTRALIA?

HIGH QUALITY OF COURSES IN AUSTRALIA

Australia offers a high quality of courses that combine practical and theory. This is because of this approach that Australian Universities are in the best universities of the world.

INTERNATIONAL RECOGNITION

Having an Australian Degree will be more easily recognized around the world. It will give you direct access to an international career!

HAVING A DEGREE IN ENGLISH

Having a degree in Australia will also prove your high level of English to your potential employer.

[MAIN INDEX](#)

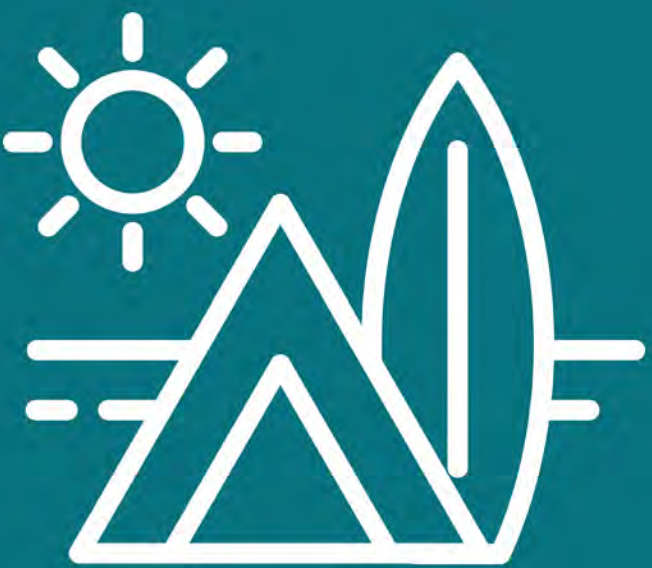

[GO STUDY PARTNERS](#)

LEVEL OF LIFE IN AUSTRALIA (RATIO SALARY/PRICE OF SCHOOL)

The cost of education seems high if you compare to European costs. But if you

compare the cost of education with the salary, Australia is way more interesting! A part-time job with the minimum rate can cover the cost of life and your student fees. Ask your Go Study counsellor about the flexible payment plans available for your student fees (the payment plans depends directly on the school you choose).

AUSSIE WAY OF LIFE

Australia offers a lifestyle that is truly hard to beat! Money is no issue when you have an abundance of beaches, nature activities and public cultural events to consume for free. And

when you are ready to part with a bit of cash, the variety and quality food, beverages and nightlife is very affordable and VERY entertaining!

DEGREES

BACHELOR DEGREE & HONOURS

A Bachelor Degree is the most common university qualification. Australian Bachelor Degrees are recognised worldwide. The average duration of these courses are 3 years but you can accelerate and complete in only 2 years.

Many universities will also recognise your previous studies and allow you to “transfer credit” into your new degree and complete a qualification in only 1 year. If you want to explore this, talk to us at Go Study and we can advise the best institutions to assist you.

At the end of your Bachelor, you can add a year of study called Honours. This additional year involves a research project and requires the completion of

[MAIN INDEX](#)

[GO STUDY PARTNERS](#)

a thesis. A Bachelor with Honours will give you a special distinction for your future career.

Bachelor Degrees and Honours are delivered by Australian Universities and a growing number of professional institutions (such as TAFE) or private colleges - which are often more affordable and offer a more personalised experience.

MASTER'S DEGREE

Master's courses are delivered by universities and a limited number of private colleges.

PHD (OR DOCTORAL DEGREE)

This is the highest qualification provided by an University. It requires the completion of a major thesis. To apply to this course, you need to complete a Honours Degree or equivalent. The holders of a PhD are permitted to use the title "Doctor".

AUSTRALIAN UNIVERSITIES VS PRIVATE SCHOOL?

	UNIVERSITIES	PRIVATE INSTITUTIONS	TAFE
COSTS (PER YEAR)	\$ 25,000+	\$ 14,000+	\$ 16,000+
CAREER OUTCOMES	Good but broad	Great but often specialised	Good
PERSONALISATION	Low	High	Medium
CLASS SIZE	Up to 1000	50 or less	50-200
SPECIALISATION	Broad focus	Often very specialised	Broad focus
NATIONALITY MIX	Mixed	Mixed	Mixed
REPUTATION	Strong	Varies by institution from unknown to exceptional	Strong
THEORY/PRACTICAL	Theory	Theory + Practical	More Practical

[MAIN INDEX](#)

[GO STUDY PARTNERS](#)

SHORT TERM STUDY ABROAD OPTIONS

Many Australian Higher Education providers can offer a 'Study Abroad' program. This is an opportunity for you to come to Australia for a short term to study a semester or a year abroad. The most common option is a 3 -6 month program. If you currently study overseas, you may be able to have your home university recognise the subjects you studied in Australia. On some study abroad programs, you can also study only 3 subjects instead

[MAIN INDEX](#)

[GO STUDY PARTNERS](#)

of 4 per semester which will allow you more time to spend in Australia.

Whether you come out to test the waters before committing to a full degree, or maybe you are already studying a degree in your home country and you want to complete one of your subjects in Aus; GoStudy can help! The opportunities will differ according to your school and your course; it can be quite hard to find the details you need online. GoStudy can help facilitate your study abroad experience from start to finish. We can ensure you get on the right program, at the right time, with the right institute to meet all your Aussie study needs. Contact us today and we can send you all the right information to get you started!

WHY WE LIKE JAMES COOK UNIVERSITY

We like James Cook because it is a little different to the rest. Townsville is a regional spot where a lot of internationals stay during their farmwork, and where a lot of local Australians have grown up. It is in tropical Queensland where arms are open and shoes are often off! The social scene is like no other and the specialised courses are taught in the best spot for practice. If you want to study marine life - this is the place to be!
